

1. **Meridians affected by all-grass of Shepherd's Purse:** Liver, Spleen, Bladder
2. **Properties of all-grass of Shepherd's Purse:** Sweet, Tasteless, Cool
3. **Medicinal classification of Sapindi Mukorossiperic Arpium:** External Medicinal (Draw Out Toxin, Resolve Putridity)
4. **Medicinal classification of Calendula Officinalis:** Blood-Cooling Hemostatic Medicinal
5. **Properties of Isatis leaf:** Bitter, Cold
6. **Medicinal classification of Ginkgo Folium:** Antitussive Antiasthmatics
7. **Medicinal classification of Uniflower Swisscentaury Root:** Antipyretic Detoxicate Drugs
8. **Medicinal classification of Solanum Nigrum Linn.:** Antipyretic Detoxicate Drugs
9. **Meridians affected by the root and rhizome of Incised Notopterygium:** Bladder, Kidney
10. **Part of Pomegranate Rind used in TCM:** Pericarp
11. **Part of Cockscomb flower used in TCM:** Inflorescence
12. **Medicinal classification of White Hyacinth Bean:** Qi Reinforcing Drugs
13. **Properties of all-grass of Japanese St. John's Wort:** Bitter, Sour, Slightly Cold
14. **Medicinal classification of fruit of Seabuckthorn:** Blood Activating Stasis Removing Drugs
15. **Medicinal classification of Plum Flower:** Astringent Medicinal
16. **Medicinal classification of fruit of Rangooncreeper:** Antiparasitic Drugs
17. **English name of the herb Wuhuanzi:** Sapindi Mukorossi Semen
18. **English name of the herb Zihuadiding:** Tokyo Violet Herb
19. **Medicinal classification of Ligustici Rhizoma Et Radix:** Pungent-Warm Exterior-Releasing Medicinal
20. **Part of Nutmeg used in TCM:** Kernel
21. **English name of the herb Wangbuliuxing:** Vacarria seed, Cow soapwort seed
22. **Medicinal classification of Lunulatae Herba:** Astringent Medicinal
23. **Medicinal classification of Morindae Officilis Radix:** Yang Reinforcing Drugs
24. **Meridians affected by the bark of Oriental Variegated Coralbean:** Liver, Spleen
25. **Medicinal classification of Ramine root:** Antipyretic Detoxicate Drugs
26. **Meridians affected by the flower of Chinese Globeflower:** Lung, Stomach
27. **Medicinal classification of Thunder Ball:** Antitussive Antiasthmatics
28. **English name of the herb Jiezi:** Mustard Seed
29. **English name of the herb Banzhilian:** All-grass of Barbed Skullcap
30. **English name of the herb Hujiao:** Pepper Fruit
31. **English name of the herb Lvdou:** Mung Bean
32. **Properties of the flower of Common Trumpetcreeper:** Sweet, Sour, Cold
33. **English name of the herb Dasuan:** Garlic
34. **English name of the herb Chaihu:** Root of Chinese Thorowax
35. **Medicinal classification of the spore of Japanese Climbing Fern:** Diuretic Dampness Excreting Drugs
36. **Properties of Anisodus Acutangulus:** Bitter, Pungent, Warm, Extremely Poisonous

37. **Medicinal classification of Doubleteeth Pubescent Angelica Root:**
Wind-Dampnessdispelling And Heatclearing Medicinal
38. **Part of Common Burreed Tuber used in TCM:** Tuber
39. **Properties of Indian Bread:** Sweet, Tasteless, Calm
40. **English name of the herb Baiguo:** Ginkgo Seed
41. **Medicinal classification of Pseudolaricis Cortex:** Medicinal For Detoxification,
Parasiticide, Drying Dampness And Relieving Itching
42. **Part of all-grass of Barbed Skullcap used in TCM:** Whole Herb
43. **English name of the herb Kudiding:** All-grass of Japanese St. Johnswort
44. **Meridians affected by Common Scouring Rush Herb:** Liver, Lung, Stomach
45. **Part of the fruit of Cherokee Rose used in TCM:** Seed
46. **Medicinal classification of All-grass of Dahurian Patrinia:** Antipyretic Detoxicate
Drugs
47. **Properties of Lucid Ganoderma:** Sweet, Warm
48. **Medicinal classification of Meliae Azedarach Fructus:** Antiparasitic Drugs
49. **Medicinal classification of Stachyurus or Japanese Helwingia Pith:** Heat-Clearing
And Dampnessdrying Medicinal
50. **Meridians affected by Rose Flower:** Liver, Spleen
51. **English name of the herb Shijunzi:** Fruit of Rangooncreeper
52. **English name of the herb Fuping:** All-grass of Common Duckweed
53. **English name of the herb Heye:** Lotus Leaf
54. **Medicinal classification of All-grass of Spreading Hedyotis:** Antipyretic Detoxicate
Drugs
55. **English name of the herb Daidaihua:** Citrus Aurantium
56. **Properties of Benzoin:** Pungent, Bitter, Calm
57. **English name of the herb Heshi:** Common Carpesium Fruit
58. **Meridians affected by Wild Buckwheat Rhizome:** Liver, Stomach, Large Intestine
59. **English name of the herb Qianghuo:** Root and rhizome of Incised Notopterygium
60. **Properties of Selaginella Doederleinii:** Sweet, Slightly Bitter, Slightly Cold
61. **Meridians affected by Pokeberry Root:** Heart, Spleen, Stomach, Liver, Gallbladder,
Large Intestine
62. **Part of Hemerocallis Radix used in TCM:** Root
63. **English name of the herb Bingpian:** Borneol
64. **Part of Medicinal Evodia Fruit used in TCM:** Fruit
65. **Part of the spore of Japanese Climbing Fern used in TCM:** Aerial Parts
66. **English name of the herb Diercao:** All-grass of Japanese St. Johnswort
67. **Properties of Lepidium seed, Descurainia seed:** Pungent, Slightly Bitter, Warm
68. **English name of the herb Zhuyazao:** Chinese Honeylocust Abnormal Fruit
69. **Meridians affected by Benzoin:** Heart, Liver, Lung
70. **Meridians affected by Peucedanidecursivi Radix:** Liver, Spleen, Lung, Large Intestine
71. **Meridians affected by Tangerine Seed:** Liver, Kidney
72. **Meridians affected by Borneol:** Lung, Spleen, Heart
73. **Medicinal classification of Datura Flower:** Antitussive Antiasthmatics
74. **English name of the herb Jingdaji:** Peking Euphorbia Root

75. **Part of root of Membranous Milkvetch used in TCM:** Root
76. **English name of the herb Gujingcao:** Pipewort Flower
77. **Meridians affected by Buckeye Seed:** Heart, Lung, Spleen, Stomach
78. **Part of Abrus Precatorius L. used in TCM:** Ripe Seed
79. **Medicinal classification of All-grass of Haichow Elsholtzia:** Pungent-Warm Exterior-Releasing Medicinal
80. **Medicinal classification of All-grass of Japanese Hop:** Diuretic Dampness Excreting Drugs
81. **Which meridians are affected by Myrrh?**
Answer: Heart, Liver, Spleen
82. **What is the English name of the herb Yuansui?**
Answer: Motherwort
83. **What is the English name of the herb Huzhang?**
Answer: Rhizome of Giant Knotweed
84. **What is the English name of the herb Qingfengteng?**
Answer: Caulis Sinomenii
85. **What is the medicinal classification of the root of Medicinal Cyathula?**
Answer: Blood-Activating And Stasis-Resolving Medicinal
86. **Which meridians are affected by the Flower of Common Bombax?**
Answer: Heart, Liver
87. **What is the medicinal classification of Common Aucklandia Root?**
Answer: Qi Regulating Drugs
88. **What is the medicinal classification of the root and rhizome of Sorrel Rhubarb?**
Answer: Offensive Purgative Medicinal
89. **What is the medicinal classification of All-grass of Glabrous Sarcandra?**
Answer: Antipyretic Detoxicate Drugs
90. **Which meridians are affected by the Rhizome of Heartleaf Dryria?**
Answer: Heart, Liver, Kidney, Spleen
91. **What is the English name of the herb Guangzao?**
Answer: Pine Pollen
92. **What part of the root of Gansui is used in TCM?**
Answer: Tuberoid

93. **Which meridians are affected by Areca Seed?**
Answer: Stomach, Large Intestine
94. **What part of the root of Tatarian Aster is used in TCM?**
Answer: Root and Rhizome
95. **What is the medicinal classification of Ailanthus Bark, Tree of Heaven Bark?**
Answer: Heat-Clearing And Dampness-Drying Medicinal
96. **What is the medicinal classification of Siphonostegiae Herba?**
Answer: Blood-Activating And Stasis-Resolving Medicinal
97. **What part of the Chinese Taxillus Herb is used in TCM?**
Answer: Stem and Branch-Leaf
98. **What is the English name of the herb Qianshi?**
Answer: Seed of Gordon Euryale
99. **What part of the rhizome of Bistort is used in TCM?**
Answer: Rhizome
100. **What is the English name of the herb Xuancaogen?**
Answer: Root of Fourstamen Stephania
101. **What is the English name of the herb Huajiao?**
Answer: Pricklyash Peel
102. **What part of Pharbitis Seed is used in TCM?**
Answer: Seed
103. **Which meridians are affected by All-grass of Mile Swertia?**
Answer: Liver, Gallbladder, Bladder
104. **What part of Chinese Cinquefoil is used in TCM?**
Answer: Root
105. **What is the English name of the herb Dijincao?**
Answer: All-grass of Humifuse Euphorbia
106. **What is the medicinal classification of Macacae Calculus Gasteris?**
Answer: Fire Purging Drugs
107. **What is the medicinal classification of Ginseng Leaf?**
Answer: Qi Reinforcing Drugs

108. **What is the English name of the herb Qianjinba?**
Answer: Root of Philippine Flemingia
109. **Which meridians are affected by Chinese Star Anise?**
Answer: Liver, Kidney, Spleen, Stomach
110. **What is the medicinal classification of Cymbopon Citratus (Lemongrass)?**
Answer: Antipyretic Detoxicate Drugs
111. **What is the English name of the herb Qinghao?**
Answer: Sweet Wormwood Herb
112. **What is the medicinal classification of Clove?**
Answer: Warming Interior Drugs
113. **Which meridians are affected by Stem of Sargentgloryvine?**
Answer: Large Intestine, Liver
114. **What are the properties of Pollen of Longbract Cattail?**
Answer: Sweet, Calm
115. **Which meridians are affected by Root and Rhizome of Sorrel Rhubarb?**
Answer: Spleen, Stomach, Large Intestine, Liver, Pericardium
116. **What is the English name of the herb Sharen?**
Answer: Villous Amomum Fruit
117. **What are the properties of Loquat Leaf?**
Answer: Bitter, Slightly Cold
118. **Which meridians are affected by Picrorhizae Rhizoma?**
Answer: Liver, Stomach, Large Intestine
119. **Which meridians are affected by Fruit of Rangooncreeper?**
Answer: Spleen, Stomach, Large Intestine, Triple Energizers, Gallbladder
120. **What is the medicinal classification of Kusnezoff Monkshood Leaf?**
Answer: Wind-Dampnessdispelling And Heatclearing Medicinal
121. **Which meridians are affected by Cotyledon Fimbriata Turcz.?**
Answer: Spleen, Lung, Heart, Kidney

122. **What is the medicinal classification of Pummelo Peel?**
Answer: Qi Regulating Drugs
123. **What are the properties of Eucommiae Folium?**
Answer: Slightly Pungent, Warm
124. **What are the properties of Fragrant Solomonseal Rhizome?**
Answer: Sweet, Slightly Cold
125. **What part of Puff-ball is used in TCM?**
Answer: Sporocarp
126. **What part of Root of Garden Burnet is used in TCM?**
Answer: Root
127. **What is the English name of the herb Shaji?**
Answer: Fruit of Seabuckthorn
128. **What part of All-grass of Common Heron's Bill is used in TCM?**
Answer: Whole Herb or Rhizome
129. **What is the medicinal classification of Dutchmanspipe Vine?**
Answer: Wind-Dampnessdispelling And Colddispersing Medicinal
130. **What is the English name of the herb Guanghuangbo?**
Answer: Phellodendri Amurensis Cortex
131. **What are the properties of Dictamni Cortex?**
Answer: Bitter, Cold
132. **What is the English name of the herb Dazaojiao?**
Answer: Gleditsiae Fructus
133. **Which meridians are affected by Chinese Gall?**
Answer: Lung, Large Intestine, Kidney
134. **Which meridians are affected by Shrub Chastetree Fruit?**
Answer: Liver, Kidney
135. **What are the properties of Root and Rhizome of Smilax?**
Answer: Sweet, Slightly Sour, Calm

136. **What is the medicinal classification of Sedum Aizoon L.?**
Answer: Stasis-Resolving Hemostatic Medicinal
137. **What are the properties of Ailanthus Bark, Tree of Heaven Bark?**
Answer: Bitter, Astringent, Cold
138. **What are the properties of Rhizome of Bistort?**
Answer: Bitter, Astringent, Slightly Cold
139. **What part of the Fruit-Spike of Common Selfheal is used in TCM?**
Answer: Spike
140. **What is the English name of the herb Ercha?**
Answer: Cutch, Black Catechu
141. **What is the medicinal classification of Jack Bean?**
Answer: Qi Regulating Drugs
142. **Which meridians are affected by Lotus Plumule?**
Answer: Heart, Kidney
143. **Which meridians are affected by Chuanxiong Rhizome (Szechuan Lovage Root)?**
Answer: Liver, Gallbladder, Pericardium
144. **What part of Stem of Sargentgloryvine is used in TCM?**
Answer: Stem
145. **What is the medicinal classification of All-grass of Common Andrographis?**
Answer: Antipyretic Detoxicate Drugs
146. **What is the medicinal classification of Herba Clematidis Aethusaefoliae?**
Answer: Wind-Dampnessdispelling And Colddispersing Medicinal
147. **What is the English name of the herb Renshen?**
Answer: Ginseng
148. **What part of Dried Ginger is used in TCM?**
Answer: Dried Rhizome
149. **What are the properties of the Spore of Japanese Climbing Fern?**
Answer: Sweet, Salty, Cold

150. **What are the properties of Akebia Fruit?**
Answer: Bitter, Cold
151. **What part of Root of Grand Hogfennel is used in TCM?**
Answer: Root
152. **What are the properties of Root of Japanese Ampelopsis?**
Answer: Bitter, Slightly Cold
153. **What part of Eucommia Bark is used in TCM?**
Answer: Bark
154. **What is the English name of the herb Yimucao?**
Answer: Motherwort
155. **What part of Stem of Chinese Star Jasmine is used in TCM?**
Answer: Leafy Stem
156. **What are the properties of Root of Garden Burnet?**
Answer: Bitter, Sour, Astringent, Slightly Cold
157. **What is the English name of the herb Juluo?**
Answer: Citri Fructus Retinervus
158. **What part of Garlic is used in TCM?**
Answer: Bulb
159. **Which meridians are affected by Red Peony Root?**
Answer: Heart, Stomach, Liver
160. **What are the properties of Rhizome of Obscured Homalome?**
Answer: Bitter, Pungent, Warm
161. **What is the medicinal classification of Catclaw Buttercup Root?**
Answer: Astringent Medicinal
162. **What are the properties of Cassia Twig?**
Answer: Pungent, Sweet, Warm
163. **What part of All-grass of Spanish Needles is used in TCM?**
Answer: Whole Herb

164. **What are the properties of Suberect Spatholobus Stem?**
Answer: Bitter, Sweet, Warm
165. **What is the medicinal classification of Illicis Cornutae Folium Immayuri?**
Answer: Fire Purging Drugs
166. **What are the properties of Peking Euphorbia Root?**
Answer: Bitter, Cold, Toxic
167. **What is the English name of the herb Huangjing?**
Answer: Rhizome of Fragrant Solomonseal
168. **What part of Akebia Fruit is used in TCM?**
Answer: Seed
169. **What is the English name of the herb Bibo?**
Answer: Piperis Longi Fructus
170. **What are the properties of All-grass of Barbed Skullcap?**
Answer: Bitter, Cold
171. **What is the English name of the herb Baibu?**
Answer: Root of Japanese Stemo
172. **What part of Stem of Kadsura Pepper is used in TCM?**
Answer: Stem
173. **What is the English name of the herb Duzhong?**
Answer: Eucommia Bark
174. **What is the English name of the herb Huangqi?**
Answer: Root of Membranous Milkvetch
175. **What are the properties of Root of Lightyellow Sophora?**
Answer: Bitter, Cold
176. **What is the medicinal classification of Achene of Great Burdock?**
Answer: Pungent Cool Diaphoretics
177. **Which meridians are affected by Root of Garden Burnet?**
Answer: Liver, Kidney, Large Intestine

178. **What part of Flower of Chinese Globeflower is used in TCM?**
Answer: Flower
179. **What is the medicinal classification of Prince's-Feather Fruit?**
Answer: Blood Activating Stasis Removing Drugs
180. **Which meridians are affected by Areca Catechu L.?**
Answer: Spleen, Stomach, Large Intestine, Small Intestine
181. **What is the English name of the herb Qingpi?**
Answer: Green Tangerine Peel
182. **Which meridians are affected by Pod of Japanese Pagodatree?**
Answer: Liver, Large Intestine
183. **What are the properties of All-grass of Haichow Elsholtzia?**
Answer: Pungent, Bitter, Cold
184. **What is the medicinal classification of Shinyleaf Pricklyash Root?**
Answer: Wind-Damp-Dispelling And Sinew-Bone-Strengthening Medicinal
185. **Which meridians are affected by Common Clubmoss Herb?**
Answer: Liver, Spleen, Kidney
186. **Which meridians are affected by Fruit of Axillary Choerospondias?**
Answer: Liver, Spleen
187. **What is the English name of the herb Muxiang?**
Answer: Common Aucklandia Root
188. **What is the medicinal classification of Flower Bud of Japanese Pagodatree?**
Answer: Blood-Cooling Hemostatic Medicinal
189. **What is the medicinal classification of All-grass of Mile Swertia?**
Answer: Antipyretic Detoxicate Drugs
190. **Which meridians are affected by Benincasae Semen?**
Answer: Spleen, Large Intestine, Stomach
191. **What are the properties of Asiatic Cornelian Cherry Fruit?**
Answer: Sour, Astringent, Slightly Warm

192. **What is the medicinal classification of Smoked Plum?**
Answer: Astringent Medicinal
193. **Which meridians are affected by Muskmelon Base?**
Answer: Liver, Spleen, Lung, Large Intestine
194. **What is the English name of the herb Banxia?**
Answer: Tuber of Pinellia
195. **What is the English name of the herb Sijiqing?**
Answer: Salviae Chinensis Herba
196. **What is the English name of the herb Jinfeicao?**
Answer: All-grass of Japanese Inula
197. **What is the English name of the herb Tianguazi?**
Answer: Muskmelon Seed
198. **What part of Colored Mistletoe Herb is used in TCM?**
Answer: Whole Herb
199. **What are the properties of Common Clubmoss Herb?**
Answer: Sweet, Slightly Cold, Toxic
200. **What part of Rhizome of Common Curculigo is used in TCM?**
Answer: Rhizome
201. **What are the properties of Allium Bulb, Wild Scallion, Chinese Green Onion?**
Answer: Pungent, Warm
202. **What part of Galanga Resurrectionlily Rhizome is used in TCM?**
Answer: Rhizome
203. **What is the medicinal classification of All-grass of Discolor Cinquefoil?**
Answer: Antipyretic Detoxicate Drugs
204. **Which meridians are affected by Peking Euphorbia Root?**
Answer: Lung, Stomach
205. **Which meridians are affected by Root of Garden Eggplant?**
Answer: Spleen, Stomach, Lung
206. **Which meridians are affected by Flower of Pale Butterflybush?**
Answer: Lung, Liver

207. **What are the properties of Ginkgo Seed?**
Answer: Sweet, Bitter, Astringent, Calm, Toxic
208. **What is the English name of the herb Sanqihua?**
Answer: Notoginseng Flos
209. **What is the English name of the herb Gonglaomu?**
Answer: Hoveniae Dulcis Semen
210. **What is the medicinal classification of Hedysari Radix?**
Answer: Qi Reinforcing Drugs
211. **What is the English name of the herb Suhexiang?**
Answer: Storax
212. **What are the properties of All-grass of Japanese Inula?**
Answer: Bitter, Pungent, Salty, Warm
213. **What are the properties of Flower of Pale Butterflybush?**
Answer: Sweet, Slightly Cold
214. **What are the properties of Pacis Japonici Rhizoma?**
Answer: Bitter, Pungent, Warm, Extremely Poisonous
215. **What are the properties of Root of Medicinal Cyathula?**
Answer: Pungent, Warm
216. **What part of Jack-in-the-Pulpit Tuber is used in TCM?**
Answer: Tuber
217. **What is the English name of the herb Hezi?**
Answer: Medicine Terminalia Fruit
218. **What are the properties of Root of Twotooth Achyranthes?**
Answer: Bitter, Slightly Pungent, Calm
219. **What is the medicinal classification of Zedoray Rhizome?**
Answer: Blood Activating Stasis Removing Drugs
220. **What is the English name of the herb Juemingzi?**
Answer: Cassia Seed

221. **Which meridians are affected by Ginkgo Seed?**
Answer: Lung, Kidney, Large Intestine
222. **What are the properties of Siphonostegiae Herba?**
Answer: Bitter, Sour, Astringent, Slightly Cold
223. **Which meridians are affected by All-grass of Common Knotgrass?**
Answer: Liver, Spleen, Stomach, Kidney
224. **What is the medicinal classification of Root of Lobed Kudzuvine?**
Answer: Blood Activating Stasis Removing Drugs
225. **Which meridians are affected by Armand Clematis Stem?**
Answer: Heart, Small Intestine, Bladder
226. **What is the English name of the herb Chuanjinpi?**
Answer: Cortex Hibisci
227. **What is the English name of the herb Yamazi?**
Answer: Linseed
228. **What are the properties of Himalayan Teasel Root?**
Answer: Bitter, Pungent, Slightly Warm
229. **Which meridians are affected by Ginseng?**
Answer: Spleen, Lung, Heart, Kidney
230. **What is the medicinal classification of Calyx Seu Fructus Physalis?**
Answer: Antipyretic Detoxicate Drugs
231. **Which meridians are affected by Field Thistle Herb?**
Answer: Heart, Liver
232. **Which meridians are affected by Root of Japanese Stemo?**
Answer: Lung
233. **Which meridians are affected by Tree Peony Bark?**
Answer: Heart, Liver, Kidney
234. **What are the properties of Cochinchinese Asparagus Root?**
Answer: Sweet, Bitter, Cold

235. **What is the medicinal classification of Field Thistle Herb?**
Answer: Blood-Cooling Hemostatic Medicinal
236. **What is the medicinal classification of Rhizome of Nutgrass Galingale?**
Answer: Qi Regulating Drugs
237. **What are the properties of Schisandrae Sphenetherae Fructus?**
Answer: Sour, Sweet, Warm
238. **What is the English name of the herb Caocongrong?**
Answer: Boschniakia Rossica Herba
239. **What is the medicinal classification of Tuber of Pinellia?**
Answer: Phlegm-resolving Medicine
240. **Which meridians are affected by White Peony Root?**
Answer: Liver, Spleen
241. **What is the English name of the herb Lianxu?**
Answer: Lotus Stamen
242. **Which meridians are affected by Herba Solani Lyrati?**
Answer: Liver, Stomach, Kidney
243. **What is the medicinal classification of Fourleaf Ladybell Root?**
Answer: Yin-Tonifying Medicinal
244. **What is the medicinal classification of Chinese Lizardtail Rhizome or Herb?**
Answer: Diuretic Dampness Excreting Drugs
245. **Which meridians are affected by Gentiae Radix Et Rhizoma?**
Answer: Liver, Gallbladder
246. **What is the medicinal classification of Medicine Terminalia Fruit?**
Answer: Astringent Medicinal
247. **What is the medicinal classification of Round Cardamom Fruit?**
Answer: Dampness Removing Drugs
248. **What are the properties of Szechwan Chiberry Fruit?**
Answer: Pungent, Bitter, Cold

249. **What is the medicinal classification of Common Monkshood Daughter Root?**

Answer: Warming Interior Drugs

250. **Which meridians are affected by Lotus Leaf?**

Answer: Liver, Spleen, Stomach

251. **What is the medicinal classification of Suberect Spatholobus Stem?**

Answer: Blood Activating Stasis Removing Drugs

252. **What is the medicinal classification of Hoveniae Dulcis Semen?**

Answer: Antipyretic Detoxicate Drugs

253. **What is the medicinal classification of All-grass of Stringy Stonecrop?**

Answer: Antipyretic Detoxicate Drugs

254. **What is the English name of the herb Weilingcai?**

Answer: Chinese Cinquefoil

255. **Which meridians are affected by Pyrrosiae Folium?**

Answer: Lung, Bladder

256. **What is the medicinal classification of Gphalii Affinis Herba?**

Answer: Blood Activating Stasis Removing Drugs

257. **What part of Shrub Chastetree Fruit is used in TCM?**

Answer: Seed

258. **What part of Lepidium Seed, Descurainia Seed is used in TCM?**

Answer: Seed

259. **What is the medicinal classification of Large trifolious Bugbane Rhizome?**

Answer: Pungent Cool Diaphoretics

260. **Which meridians are affected by Szechwan Chiberry Fruit?**

Answer: Liver, Small Intestine, Bladder

261. **Which meridians are affected by Ailanthus Bark, Tree of Heaven Bark?**

Answer: Large Intestine, Stomach, Liver

262. **What are the properties of Jack-in-the-Pulpit Tuber?**

Answer: Bitter, Pungent, Warm, Toxic

263. **Which meridians are affected by Wild Chrysanthemum Flower?**

Answer: Liver, Stomach, Lung

264. **What are the properties of Citri Fructus Retinervus?**
Answer: Bitter, Pungent, Calm
265. **What is the English name of the herb Xiyangshen?**
Answer: American Ginseng
266. **Which meridians are affected by Flower Bud of Common Coltsfoot?**
Answer: Lung
267. **What are the properties of Common Cnidium Fruit?**
Answer: Pungent, Bitter, Warm, Slightly Toxic
268. **What part of Rhizome of Nutgrass Galingale is used in TCM?**
Answer: Rhizome
269. **What is the English name of the herb Muzei?**
Answer: Common Scouring Rush Herb
270. **Which meridians are affected by All-grass of Stringy Stonecrop?**
Answer: Liver, Kidney, Spleen, Stomach
271. **What is the medicinal classification of Root of Antifebrile Dichroa?**
Answer: Emetic Medicinal
272. **What is the English name of the herb Baifuzi?**
Answer: Rhizome of Giant Typhonium
273. **What is the medicinal classification of Abrus Precatorius L.?**
Answer: Antipyretic Detoxicate Drugs
274. **What are the properties of Root of Baikal Skullcap?**
Answer: Bitter, Cold
275. **What is the English name of the herb Baiyaozi?**
Answer: Puff-ball
276. **What are the properties of Fruit of Seville Orange?**
Answer: Bitter, Pungent, Sour, Slightly Cold
277. **What is the English name of the herb Mujingzi?**
Answer: Viticis Canbifoliae Fructus

278. **What are the properties of European Verbena Herb?**
Answer: Bitter, Cool
279. **What part of Flower of Common Bombax is used in TCM?**
Answer: Flower
280. **What are the properties of Decumbent Corydalis Rhizome?**
Answer: Bitter, Slightly Pungent, Warm
281. **What is the medicinal classification of Lysimachiae Foenigraeci Herba?**
Answer: Diuretic Dampness Excreting Drugs
282. **What are the properties of Broussonetiae Fructus?**
Answer: Sweet, Pungent, Slightly Astringent, Calm
283. **Which meridians are affected by Root of Divaricate Saposhnikovia?**
Answer: Lung, Liver
284. **What is the medicinal classification of All-grass of Common Knotgrass?**
Answer: Diuretic Dampness Excreting Drugs
285. **What is the medicinal classification of All-grass of Japanese Inula?**
Answer: Phlegm-resolving Medicine
286. **Which meridians are affected by Fresh Ginger?**
Answer: Lung, Spleen, Stomach
287. **What part of Rose Flower is used in TCM?**
Answer: Bud
288. **What is the medicinal classification of All-grass of Rippleseed Plantain?**
Answer: Diuretic Dampness Excreting Drugs
289. **What are the properties of Yellow Azalea Flower?**
Answer: Pungent, Bitter, Slightly Cold, Toxic
290. **What is the medicinal classification of Motherwort Fruit?**
Answer: Blood Activating Stasis Removing Drugs
291. **What is the medicinal classification of Saffron?**
Answer: Blood Activating Stasis Removing Drugs
292. **Which meridians are affected by Sanchi?**
Answer: Liver, Pericardium

293. **What is the English name of the herb Dingxiang?**
Answer: Clove
294. **What part of Safflower is used in TCM?**
Answer: Flower
295. **What part of Cassia Bark is used in TCM?**
Answer: Bark
296. **What are the properties of Apocyniveneti Folium?**
Answer: Sweet, Bitter, Cool
297. **What is the English name of the herb Mihoutaogen?**
Answer: Actinidia Chinensis Planch
298. **What is the English name of the herb Tianzhuhuang?**
Answer: Chinese Schizostachyum Tabasheer
299. **What are the properties of Sapindi Mukorossiperic Arpium?**
Answer: Bitter, Pungent, Slightly Cold
300. **Which meridians are affected by Muskroot-like Semiaquilegia Root?**
Answer: Liver, Stomach
301. **What is the English name of the herb Xixiancao?**
Answer: Siegesbeckiae Herba
302. **What is the English name of the herb Chenxiang?**
Answer: Oily Wood of Agalloch Eaglewood
303. **What are the properties of Citri Fructus?**
Answer: Pungent, Bitter, Warm
304. **Which meridians are affected by Rhizome of Obscured Homalome?**
Answer: Liver, Spleen, Stomach
305. **What is the English name of the herb Jinzhanjuhua?**
Answer: Calendula Officinalis
306. **What is the medicinal classification of Pith of Ricepaper Plant?**
Answer: Diuretic Dampness Excreting Drugs
307. **Which meridians are affected by Root of Tatarian Aster?**
Answer: Lung

308. **What are the properties of Spine of Chinese Honeylocust?**

Answer: Bitter, Slightly Pungent, Calm

309. **What are the properties of Wild Buckwheat Rhizome?**

Answer: Slightly Pungent, Astringent, Cool

310. **What is the medicinal classification of Cicada Slough?**

Answer: Pungent Cool Diaphoretics

311-320: Herb Properties & Affected Meridians

311. **Which meridians are affected by Java Brucea Fruit?**

Answer: Liver

312. **What are the properties of Chinese Lobelia Herb?**

Answer: Pungent, Slightly Sweet, Slightly Cold

313. **What are the properties of Chinese Star Anise?**

Answer: Pungent, Warm

314. **What is the English name of the herb Xiangfu?**

Answer: Rhizome of Nutgrass Galingale

315. **What are the properties of All-grass of Fineleaf Schizonepeta?**

Answer: Pungent, Slightly Warm

316. **Which meridians are affected by Gphalii Affinis Herba?**

Answer: Heart, Liver, Spleen

317. **What are the properties of Corydalis Tuber?**

Answer: Warm, Pungent, Bitter

318. **Which meridians are affected by American Ginseng?**

Answer: Heart, Lung, Kidney

319. **What are the properties of Root of Chinese Pulsatilla?**

Answer: Bitter, Cold

320. **What are the properties of Lunulatae Herba?**

Answer: Slightly Bitter, Salty, Cool

321. **What is the English name of the herb Huashanshen?**

Answer: Glutinous Rice Root

322. **Which meridians are affected by Pith of Ricepaper Plant?**
Answer: Lung, Stomach
323. **What is the English name of the herb Madouling?**
Answer: Dutchmanspipe Fruit
324. **What are the properties of Seed of Asiatic Plantain?**
Answer: Sweet, Cold
325. **What is the English name of the herb Cangzhu?**
Answer: Rhizome of Swordlike Atractylodes
326. **What are the properties of Paniculate Bolbostemma?**
Answer: Sweet, Calm
327. **What part of Corn Stigma is used in TCM?**
Answer: Style and Stigma
328. **What is the medicinal classification of Fruit of Common Flowering Quince?**
Answer: Wind-Dampness Dispelling And Cold-Dispelling Medicinal
329. **What are the properties of Vietnamese Sophora Root?**
Answer: Bitter, Cold, Toxic
330. **What are the properties of Storax?**
Answer: Slightly Bitter, Pungent, Warm, Slightly Toxic
331. **What is the medicinal classification of Emblic Leafflower Fruit?**
Answer: Antipyretic Detoxicate Drugs
332. **What is the English name of the herb Shandougen?**
Answer: Vietnamese Sophora Root
333. **Which meridians are affected by All-grass of Heartleaf Houltuynia?**
Answer: Lung
334. **What part of Sweet Wormwood Herb is used in TCM?**
Answer: Whole Herb
335. **What is the English name of the herb Tiankuizi?**
Answer: Muskroot-like Semiaquilegia Root

336. **What are the properties of English Walnut Seed?**
Answer: Sweet, Warm
337. **What are the properties of Desertliving Cistanche?**
Answer: Sweet, Salty, Warm
338. **Which meridians are affected by Root of Japanese Ampelopsis?**
Answer: Liver, Large Intestine
339. **What part of Ginkgo Seed is used in TCM?**
Answer: Ripe Seed
340. **Which meridians are affected by Fruit of Chinese Wolfberry?**
Answer: Liver, Kidney
341. **What is the medicinal classification of Peucedanidecursivi Radix?**
Answer: Antipyretic Detoxicate Drugs
342. **What is the medicinal classification of Green Tangerine Peel?**
Answer: Qi Regulating Drugs
343. **What part of All-grass of Fineleaf Schizonepeta is used in TCM?**
Answer: Whole Herb
344. **What part of Rhizome of Chinese Goldthread is used in TCM?**
Answer: Rhizome
345. **What part of Mustard Seed is used in TCM?**
Answer: Seed
346. **Which meridians are affected by Achene of Great Burdock?**
Answer: Stomach, Large Intestine
347. **What is the medicinal classification of Rhizome of Giant Typhonium?**
Answer: Phlegmresolving Medicine
348. **What is the medicinal classification of Piperis Longi Fructus?**
Answer: Warming Interior Drugs
349. **What part of All-grass of Chinese Pyrola is used in TCM?**
Answer: Whole Herb

350. **What is the medicinal classification of American Ginseng?**
Answer: Qi Reinforcing Drugs
351. **What is the medicinal classification of Akebia, Clematis Stem?**
Answer: Wind-Dampness Dispelling And Cold-Dispelling Medicinal
352. **What are the properties of Chicory Herb?**
Answer: Slightly Bitter, Salty, Cool
353. **Which meridians are affected by Ussuri Fritillary Bulb?**
Answer: Lung, Stomach, Liver
354. **What is the medicinal classification of Cluster Mallow Fruit?**
Answer: Liver-Pacifying Wind-Extinguishing Medicinal
355. **Which meridians are affected by Eucommia Bark?**
Answer: Liver, Kidney
356. **Which meridians are affected by Fourleaf Ladybell Root?**
Answer: Lung, Liver
357. **What is the English name of the herb Hetaoren?**
Answer: English Walnut Seed
358. **What are the properties of Cockscomb Flower?**
Answer: Sweet, Astringent, Cool
359. **What is the English name of the herb Wasong?**
Answer: Cotyledon Fimbriata Turcz.
360. **Which meridians are affected by Storax?**
Answer: Heart, Spleen
361. **Which meridians are affected by Radix Stephaniae Cepharanthae?**
Answer: Liver, Stomach
362. **Which meridians are affected by Virgate Wormwood Herb?**
Answer: Spleen, Stomach, Liver, Gallbladder
363. **What is the medicinal classification of Pollen of Longbract Cattail?**
Answer: Stasis-Resolving Hemostatic Medicinal

364. **What is the medicinal classification of Germinated Barley?**
Answer: Digestants
365. **Which meridians are affected by Root of Common Htreewingnut?**
Answer: Liver, Heart
366. **Which meridians are affected by Ilicis Cornutae Folium Immayuri?**
Answer: Liver, Lung, Stomach
367. **What is the English name of the herb Lianfang?**
Answer: Lotus Receptacle
368. **What are the properties of Common Carpesium Fruit?**
Answer: Pungent, Bitter, Warm
369. **What part of Weeping Forsythia Capsule is used in TCM?**
Answer: Ripe Fruit Without Shell
370. **Which meridians are affected by Coriandri Sativi Herba?**
Answer: Lung, Spleen, Stomach, Large Intestine
371. **What is the medicinal classification of Vitis Canbifoliae Fructus?**
Answer: Wind-Dampness Dispelling And Heat-Clearing Medicinal
372. **What is the medicinal classification of Calyx and Receptacle of a Persimmon?**
Answer: Phlegm-resolving Medicine
373. **Which meridians are affected by Common Carpesium Fruit?**
Answer: Spleen, Stomach
374. **What are the properties of Pomegranate Rind?**
Answer: Sour, Astringent, Warm
375. **What are the properties of Lotus Plumule?**
Answer: Bitter, Cold
376. **What are the properties of Root of Chinese Thorowax?**
Answer: Bitter, Cold
377. **What is the medicinal classification of Fructus Carotae?**
Answer: Antiparasitic Drugs

378. What part of Hemp Seed is used in TCM?

Answer: Ripe Seed

379. Which meridians are affected by Rhizome of Oriental Waterplantain?

Answer: Kidney, Bladder

380. What is the medicinal classification of Chinese Taxillus Herb?

Answer: Wind-Damp Dispelling And Sinew-Bone Strengthening Medicinal

381. What are the properties of Tuber-root of Common Turmeric?

Answer: Pungent, Bitter, Cold

382. What is the medicinal classification of Decumbent Corydalis Rhizome?

Answer: Wind-Dampness Dispelling And Heat-Clearing Medicinal

383. What are the properties of Root of Common Htreewingnut?

Answer: Bitter, Cold, Toxic

384. What are the properties of Rhizoma Seu Herba Aristolochiae Mollissimae?

Answer: Bitter, Cold

385. Which meridians are affected by Root of Fourstamen Stephania?

Answer: Heart, Liver

386. What is the English name of the herb Meihua?

Answer: Plum Flower

387. What are the properties of Notoginseng Flos?

Answer: Sweet, Slightly Bitter, Cool

388. What are the properties of Litchi Seed?

Answer: Sweet, Slightly Bitter, Warm

389. What part of Sinkiang Fritillary Bulb is used in TCM?

Answer: Bulb

390. What is the English name of the herb Mohanlian?

Answer: Chrysanthemum Flower

391-400: Herb Classifications & Affected Meridians

391. Which meridians are affected by Meliae Cortex?

Answer: Liver, Kidney

392. **What is the medicinal classification of Aloe?**
Answer: Offensive Purgative Medicinal
393. **What are the properties of Mentha, Peppermint?**
Answer: Pungent, Cool
394. **What part of Purpleflower Holly Leaf is used in TCM?**
Answer: Leaf
395. **What is the English name of the herb Yangjinhua?**
Answer: Datura Flower
396. **What is the medicinal classification of Linseed?**
Answer: Laxatives
397. **What is the medicinal classification of Cayratiae Japonicae Herba?**
Answer: Wind-Dampness Dispelling And Heat-Clearing Medicinal
398. **What are the properties of Clinopodium Herb?**
Answer: Sweet, Slightly Bitter, Astringent, Calm
399. **What is the medicinal classification of Tuber Onion Seed?**
Answer: Yang Reinforcing Drugs
400. **What part of Root of Antifebrile Dichroa is used in TCM?**
Answer: Root
401. **Which meridians are affected by Cayratiae Japonicae Herba?**
Answer: Heart, Liver, Stomach
402. **What part of Sapindi Mukorossiperic Arpium is used in TCM?**
Answer: Whole Herb
403. **Which meridians are affected by Safflower?**
Answer: Heart, Liver
404. **What are the properties of Cow-bezoar?**
Answer: Sweet, Cool
405. **What part of Chinese Lobelia Herb is used in TCM?**
Answer: Aerial Parts

406. **What is the English name of the herb Fenbixie?**
Answer: Dioscoreae Hypoglaucae Rhizoma
407. **What are the properties of Morindae Officilis Radix?**
Answer: Sweet, Pungent, Slightly Warm
408. **Which meridians are affected by Cicada Slough?**
Answer: Lung, Liver
409. **What is the English name of the herb Kudingcha?**
Answer: Ilicis Cornutae Folium Immayuri
410. **What is the medicinal classification of Dodder Seed?**
Answer: Yang Reinforcing Drugs
411. **What is the English name of the herb Ganjiang?**
Answer: Dried Ginger
412. **What is the medicinal classification of Twig of Winged Euonymus?**
Answer: Blood Activating Stasis Removing Drugs
413. **What is the English name of the herb Dangshen?**
Answer: Root Pilose Asiabell
414. **What are the properties of Canton Love-pea Vine?**
Answer: Sweet, Slightly Bitter, Cool
415. **What are the properties of All-grass of Mile Swertia?**
Answer: Bitter, Sweet, Cold
416. **What is the English name of the herb Ruiren?**
Answer: Hedge Prinsepia Nut
417. **What is the English name of the herb Yuliren?**
Answer: Chinese Dwarf Cherry Seed
418. **What are the properties of All-grass of Humifuse Euphorbia?**
Answer: Slightly Bitter, Pungent, Warm
419. **What are the properties of Pepper Fruit?**
Answer: Bitter, Pungent, Warm, Toxic

420. **What part of Pepper Fruit is used in TCM?**
Answer: Fruit
421. **What are the properties of Illicis Cornutae Folium Immayuri?**
Answer: Bitter, Pungent, Cool
422. **What is the English name of the herb Liangmianzhen?**
Answer: Shinyleaf Pricklyash Root
423. **What part of Chuanxiong Rhizome, Szechuan Lovage Root is used in TCM?**
Answer: Rhizome
424. **Which meridians are affected by Doubleteeth Pubescent Angelica Root?**
Answer: Kidney, Bladder
425. **What is the medicinal classification of Sanchi?**
Answer: Stasis-Resolving Hemostatic Medicinal
426. **What part of Mulberry Leaf is used in TCM?**
Answer: Leaf
427. **What is the English name of the herb Shidagonglaoye?**
Answer: Leaf of Leatherleaf Mahonia
428. **What part of Oily Wood of Agalloch Eaglewood is used in TCM?**
Answer: Resinous Wood
429. **What are the properties of Semino-dermis Arachidis?**
Answer: Sweet, Slightly Bitter, Astringent, Calm
430. **Which meridians are affected by Tangerine Leaf?**
Answer: Stomach, Large Intestine, Lung
431. **What is the medicinal classification of Dahurian Rhododendron Leaf?**
Answer: Antipyretic Detoxicate Drugs
432. **What is the English name of the herb Ziwan?**
Answer: Root of Tatarian Aster
433. **What is the English name of the herb Zhishi?**
Answer: Immature Fruit of Seville Orange

434. **Which meridians are affected by Boat-fruited Sterculia Seed?**
Answer: Lung, Large Intestine
435. **Which meridians are affected by Mylabris?**
Answer: Liver, Stomach, Kidney
436. **What part of Myrrh is used in TCM?**
Answer: Balsam
437. **What are the properties of Immature Fruit of Seville Orange?**
Answer: Bitter, Pungent, Sour, Slightly Cold
438. **What is the English name of the herb Mahuang?**
Answer: Ephedra
439. **What is the English name of the herb Yuganzi?**
Answer: Chinese Gall
440. **What are the properties of Root Pilose Asiabell?**
Answer: Sweet, Calm
441. **What are the properties of Fruit of Siberian Cocklebur?**
Answer: Pungent, Bitter, Warm, Toxic
442. **What are the properties of Puff-ball?**
Answer: Sweet, Tasteless, Calm
443. **What are the properties of Indigoplant Leaf?**
Answer: Bitter, Cold
444. **What are the properties of Hoveniae Dulcis Semen?**
Answer: Sweet, Sour, Astringent, Cool
445. **Which meridians are affected by Finger Citron?**
Answer: Liver, Spleen, Stomach, Lung
446. **What is the English name of the herb Dafengzi?**
Answer: Hydnocarpus Anthelminticae Semen
447. **Which meridians are affected by Fruit of Siberian Cocklebur?**
Answer: Lung

448. **What is the English name of the herb Mutong?**
Answer: Akebia, Clematis Stem
449. **What are the properties of Rhizome of Oriental Waterplantain?**
Answer: Sweet, Tasteless, Cold
450. **What are the properties of Macacae Calculus Gasteris?**
Answer: Bitter, Cold, Nontoxic
451. **What part of Nux Vomica is used in TCM?**
Answer: Seed
452. **What are the properties of All-grass of Lilac Pink?**
Answer: Pungent, Bitter, Cold
453. **Which meridians are affected by Sedum Aizoon L.?**
Answer: Liver, Kidney
454. **What is the medicinal classification of Ussuri Fritillary Bulb?**
Answer: Phlegm-resolving Medicine
455. **What are the properties of Iridis Tectori Rhizoma?**
Answer: Bitter, Cold
456. **Which meridians are affected by Root of Lightyellow Sophora?**
Answer: Lung, Spleen
457. **What are the properties of Mulberry Fruit?**
Answer: Sweet, Cold
458. **Which meridians are affected by All-grass of Dahurian Patrinia?**
Answer: Large Intestine, Stomach, Liver
459. **What is the medicinal classification of Rubi Fructus?**
Answer: Astringent Medicinal
460. **Which meridians are affected by Vaccaria Seed, Cow Soapwort Seed?**
Answer: Liver, Stomach
461. **What part of Peach Seed is used in TCM?**
Answer: Seed
462. **What is the English name of the herb Niuxi?**
Answer: Root of Twotooth Achyranthes

463. **Which meridians are affected by Spine of Chinese Honeylocust?**
Answer: Liver, Stomach
464. **What is the English name of the herb Binglang?**
Answer: Areca Seed
465. **What part of Ginseng Leaf is used in TCM?**
Answer: Leaf
466. **Which meridians are affected by Cortex Hibisci?**
Answer: Heart, Liver
467. **What is the English name of the herb Lvcao?**
Answer: All-grass of Japanese Hop
468. **Which meridians are affected by Corydalis Tuber?**
Answer: Spleen, Liver, Heart
469. **What is the medicinal classification of Notoginseng Flos?**
Answer: Antipyretic Detoxicate Drugs
470. **What is the English name of the herb Zhijuzi?**
Answer: Citri Fructus Retinervus
471. **What is the medicinal classification of Actinidia Chinensis Planch?**
Answer: Heat-Clearing And Dampness-Drying Medicinal
472. **Which meridians are affected by Japanese Ardisia Herb?**
Answer: Lung, Stomach, Liver
473. **What part of All-grass of Heartleaf Houttuynia is used in TCM?**
Answer: Whole Herb
474. **What is the English name of the herb Shanyao?**
Answer: Common Yam Rhizome
475. **What is the medicinal classification of Boschniakia Rossica Herba?**
Answer: Yang Reinforcing Drugs
476. **Which meridians are affected by Physoclaie Radix?**
Answer: Lung, Stomach

477. **What are the properties of Tokyo Violet Herb?**
Answer: Cold, Pungent, Bitter
478. **What are the properties of Bamboo Juice?**
Answer: Sweet, Bitter, Cold
479. **What are the properties of Odoriferous Rosewood?**
Answer: Pungent, Bitter, Warm
480. **What is the English name of the herb Sanfensan?**
Answer: Fresh Ginger
481. **What is the English name of the herb Tujingpi?**
Answer: Pseudolaricis Cortex
482. **What is the medicinal classification of Root of Tali Madder?**
Answer: Stasis-Resolving Hemostatic Medicinal
483. **What is the medicinal classification of Immature Fruit of Seville Orange?**
Answer: Qi Regulating Drugs
484. **What is the English name of the herb Chuanbeimu?**
Answer: Bulb of Tendirleaf Fritillary
485. **What part of Prepared Rehmannia Root is used in TCM?**
Answer: Steamed and Sundried Root
486. **What part of Uniflower Swisscentaury Root is used in TCM?**
Answer: Root
487. **What is the medicinal classification of Fruit of Siberian Cocklebur?**
Answer: Pungent-Warm Exterior-Releasing Medicinal
488. **What are the properties of Flower of Common Bombax?**
Answer: Sweet, Tasteless, Cool
489. **What is the medicinal classification of Mulberry Fruit?**
Answer: Yin-Tonifying Medicinal
490. **What is the English name of the herb Luohanguo?**
Answer: Grosvenor Momordica Fruit

491. **What are the properties of Prepared Rehmannia Root?**
Answer: Sweet, Slightly Warm
492. **What is the medicinal classification of Puff-ball?**
Answer: Antipyretic Detoxicate Drugs
493. **What is the medicinal classification of Phellodendron Bark?**
Answer: Heat-Clearing And Dampness-Drying Medicinal
494. **What is the medicinal classification of Rhizome of Common Amarrhe?**
Answer: Hemostatic Medicinal
495. **Which meridians are affected by Leafy Twigs of Oriental Arborvitae?**
Answer: Lung
496. **What are the properties of Fortune Eupatorium Herb?**
Answer: Bitter, Pungent, Slightly Cold
497. **What are the properties of Muskmelon Base?**
Answer: Bitter, Sweet, Cold
498. **What are the properties of Ephedra Root?**
Answer: Sweet, Astringent, Calm
499. **What are the properties of Jujube (Chinese Date)?**
Answer: Sweet, Warm
500. **What are the properties of Stem or Leaf of Fung Waxplant?**
Answer: Bitter, Pungent, Cold, Slightly Toxic
