

1. Which meridians are affected by all-grass of Shepherdspurse?

- Spleen, Stomach, Kidney
- Liver, Spleen, Bladder
- Lung, Liver, Large Intestine
- Spleen, Lung, Kidney

2. What are the properties of all-grass of Shepherdspurse?

- Bitter, Pungent, Warm, Slightly Toxic
- Sweet, Tasteless, Cool
- Sweet, Salty, Calm
- Sour, Sweet, Warm

3. What is the medicinal classification of Sapindi Mukorossiperic Arpium?

- Heat-Clearing And Dampnessdrying Medicinal
- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Phlegmresolving Medicine
- Antitussive Antiasthmatics

4. What is the medicinal classification of Calendula Officilis?

- Antipyretic Detoxicate Drugs
- Blood-Cooling Hemostatic Medicinal
- Tranquilizing Medicinal
- Pungent Cool Diaphoretics

5. What are the properties of Isatis leaf?

- Pungent, Bitter, Warm, Slightly Toxic
- Salty, Sweet, Calm
- Bitter, Cold
- Pungent, Slightly Bitter, Warm, Slightly Toxic

6. What is the medicinal classification of Ginkgo Folium?

- Antitussive Antiasthmatics
- Heat Clearing Blood Cooling Drugs
- Tonifying And Replenishing Medicinal
- Liver-Pacifying Wind-Extinguishing Medicinal

7. What is the medicinal classification of Uniflower Swisscentaury Root?

- Phlegmresolving Medicine
- Phlegmresolving Medicine
- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs

8. What is the medicinal classification of Solanum Nigrum Linn.?

- Blood-Cooling Hemostatic Medicinal
- Tranquilizing Medicinal
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Antipyretic Detoxicate Drugs

9. Which meridians are affected by Root and rhizome of Incised Notopterygium?

- Heart, Spleen
- Lung, Stomach, Liver
- Bladder, Kidney
- Spleen, Stomach, Heart

10. What part of Pomegranate Rind is used in TCM?

- pericarp
- whole herb
- whole herb
- fruit pedicel

11. What part of Cockscomb flower is used in TCM?

- young twig
- young fruit
- seed
- inflorescence

12. What is the medicinal classification of White Hyacinth Bean?

- Blood Activating Stasis Removing Drugs
- Qi Reinforcing Drugs
- Phlegm-resolving Medicine
- Antiparasitic Drugs

13. What are the properties of all - grass of Japanese St. Johnswort?

- Bitter, Sour, Slightly Cold
- Bitter, Cold
- Sweet, Cold
- Sweet, Slightly Bitter, Cool

14. What is the medicinal classification of fruit of seabuckthorn?

- Liver-Pacifying Wind-Extinguishing Medicinal
- Blood Activating Stasis Removing Drugs
- Astringent Medicinal
- Phlegm-resolving Medicine

15. What is the medicinal classification of Plum Flower?

- Digestants
- Astringent Medicinal
- Antitussive Antiasthmatics
- Qi Regulating Drugs

16. What is the medicinal classification of fruit of Rangoon creeper?

- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Antipyretic Detoxicate Drugs
- Antiparasitic Drugs
- Wind-Dampness-dispelling And Cold-dispersing Medicinal

17. What is the English name of the herb 茵陈蒿 (Wuhuanzi)?

- Sapindi Mukorossi Semen
- Motherwort Fruit
- Broussonetiae Fructus
- seaweed

18. What is the English name of the herb 泽泻 (Zihuadiding)?

- rhizome of Giant Typhonium
- Tokyo Violet Herb
- Piperis Longi Fructus
- Mulberry Fruit

19. What is the medicinal classification of Ligustici Rhizoma Et Radix?

- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Resuscitative Stimulant; Resuscitative Medicinal

20. What part of Nutmeg is used in TCM?

- aerial parts
- kernel
- fruit
- flower

21. What is the English name of the herb 茵陈蒿 (Wangbuliuxing)?

- leaf of Argy Wormwood
- Ailanthi Altissimae Fructus
- Mahoniae Eadix
- Vacarria seed, Cow soapwort seed

22. What is the medicinal classification of Lunulatae Herba?

- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Astringent Medicinal
- Pungent Cool Diaphoretics
- Phlegm-resolving Medicine

23. What is the medicinal classification of Morindae Officinalis Radix?

- Diuretic Dampness Excreting Drugs
- Yang Reinforcing Drugs
- Diuretic Dampness Excreting Drugs
- Qi Reinforcing Drugs

24. Which meridians are affected by bark of Oriental Variegated Coralbean?

- Heart, Liver, Kidney
- Liver, Lung, Stomach
- Liver, Spleen
- Large Intestine, Stomach, Liver

25. What is the medicinal classification of Ramine root ?

- Wind-Dampnessdispelling And Heatclearing Medicinal
- Blood-Cooling Hemostatic Medicinal
- Antipyretic Detoxicate Drugs
- Qi Reinforcing Drugs

26. Which meridians are affected by flower of Chinese Globeflower?

- Liver,Kidney
- Lung,Bladder
- Lung,Stomach
- Liver,Spleen

27. What is the medicinal classification of Thunder Ball?

- Blood Activating Stasis Removing Drugs
- Antiparasitic Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Antitussive Antiasthmatics

28. What is the English name of the herb ■■ (Jiezi)?

- Calendula Officilis
- Difengpi Bark
- Asiatic Pennywort Herb
- Mustard Seed

29. What is the English name of the herb ■■■ (Banzhilian)?

- Akebia Fruit
- All - grass of Japanese Inula
- all - grass of Barbed Skullcap
- Litchi seed

30. What is the English name of the herb ■■ (Hujiao)?

- bark of Officil magnolia
- Jack Bean
- Peucedanidecursivi Radix
- Pepper Fruit

31. What is the English name of the herb ■■ (Lvdou)?

- Akebia, Clematis stem
- Silybum Marianum
- Herbahypericiperforati
- mung bean

32. What are the properties of flower of Common Trumpetcreeper?

- Sweet,Salty,Warm
- Pungent,Warm
- Sweet,Sour,Cold
- Pungent,Warm

33. What is the English name of the herb ■■ (Dasuan)?

- Garlic
- Paniculate Swallowwort Root
- Desertliving Cistanche
- fruit of Cherokee Rose

34. What is the English name of the herb ■■ (Chaihu)?

- Common Clubmoss Herb
- Citri Exocarpium Rubrum
- root of Chinese Angelica
- root of Chinese Thorowax

35. What is the medicinal classification of spore of Japanese climbing Fern?

- Wind-Dampnessdispelling And Colddispersing Medicinal
- Antipyretic Detoxicate Drugs
- Diuretic Dampness Excreting Drugs
- Phlegmresolving Medicine

36. What are the properties of Anisodus Acutangulus C. Y. Wu Et C .Chen Ex C. Che?

- Bitter,Pungent,Warm,Extremely Poisonous
- Pungent,Salty,Warm,Slightly Toxic
- Bitter,Cold
- Bitter,Cold

37. What is the medicinal classification of Doubleteeth Pubescent Angelica Root?

- Wind-Dampnessdispelling And Colddispersing Medicinal
- Antipyretic Detoxicate Drugs
- Wind-Dampnessdispelling And Heatclearing Medicinal
- Antipyretic Detoxicate Drugs

38. What part of Common Burreed Tuber is used in TCM?

- aerial parts
- pericarp
- dried aerial parts
- tuber

39. What are the properties of Indian Bread?

- Bitter,Cold,Toxic
- Bitter,Calm
- Sweet,Tasteless,Calm
- Sweet,Cold

40. What is the English name of the herb ■■ (Baiguo)?

- Chelidonii Herba
- fruit -spike of Common Selfheal
- Ginkgo seed
- Weeping Forsythia Capsule

41. What is the medicinal classification of Pseudolaricis Cortex?

- Yang Reinforcing Drugs
- Medicinal For Detoxification ■ Parasiticide ■ Drying Dampness And Relieving Itching
- Antipyretic Detoxicate Drugs
- Astringent Hemostatic Medicinal

42. What part of all - grass of Barbed Skullcap is used in TCM?

- rhizome
- flower head with peduncle
- whole herb
- root, leaf and flower

43. What is the English name of the herb ■■■ (Kudiding)?

- all-grass of japanese hop
- Caper Euphorbia Seed
- all - grass of Bunge Corydalis
- Lotus Receptacle

44. Which meridians are affected by Common Scouring Rush Herb?

- Lung,Liver
- Pericardium,Liver
- Lung,Liver
- Liver,Lung,Stomach

45. What part of fruit of Cherokee Rose is used in TCM?

- fruit
- aerial parts
- whole herb
- seed

46. What is the medicinal classification of All - grass of Dahurian Patrinia?

- Antipyretic Detoxicate Drugs
- Fire Purging Drugs
- Tonifying And Replenishing Medicinal
- Astringent Medicinal

47. What are the properties of Lucid Ganoderma?

- Bitter,Slightly Cold,Toxic
- Sweet,Warm
- Sweet,Salty,Warm,Toxic
- Sweet,Calm

48. What is the medicinal classification of Meliae Azedarach Fructus?

- Blood Activating Stasis Removing Drugs
- Diuretic Dampness Excreting Drugs
- Antiparasitic Drugs
- Tonifying And Replenishing Medicinal

49. What is the medicinal classification of Stachyurus or Japanese Helwingia Pith?

- Wind-Damp-Dispelling And Sinew-Bone-Strengthening Medicinal
- Exterior-Releasing Medicinal
- Diuretic Dampness Excreting Drugs
- Heat-Clearing And Dampnessdrying Medicinal

50. Which meridians are affected by Rose Flower?

- Liver, Spleen
- Bladder
- Liver, Gallbladder, Large Intestine
- Lung, Heart, Liver

51. What is the English name of the herb ■■■ (Shijunzi)?

- fruit of Rangooncreeper
- Appendiculate Cremastra Pseudobulb or Common Pleione Pseudobulb
- flower of Common Trumpetcreeper
- Wikstroemiae Indicae Rasix

52. What is the English name of the herb ■■ (Fuping)?

- Semino-dermis Arachidis
- Tinosporae Radix
- Physochlaie Radix
- all-grass of Common Ducksmeat

53. What is the English name of the herb ■■ (Heye)?

- Trigonellae Semen
- Common Cnidium Fruit
- root and rhizome of Manyleaf Meadowrue
- Lotus leaf

54. What is the medicinal classification of all - grass of Spreading Hedyotis?

- Qi Regulating Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Phlegmresolving Medicine
- Antipyretic Detoxicate Drugs

55. What is the English name of the herb ■■■ (Daidaihua)?

- Isatis leaf
- Citrus Aurantium
- Semen Firmiae
- Fermented Soybean

56. What are the properties of Benzoin?

- Pungent, Hot, Toxic
- Sweet, Calm
- Sweet, Cold
- Pungent, Bitter, Calm

57. What is the English name of the herb 枳实 (Heshi)?

- Ussuri Fritillary Bulb
- Dahurian Angelica Root
- Common Carpesium Fruit
- Chinese Cinquefoil

58. Which meridians are affected by Wild Buckwheat Rhizome?

- Liver
- Liver, Stomach, Large Intestine
- Lung
- Liver, Spleen

59. What is the English name of the herb 羌活 (Qianghuo)?

- Benzoin
- root of common htreewingnut
- Root and rhizome of Incised Notoptergium
- root of Common Monkshood

60. What are the properties of Selaginella Doederleinii Hieron?

- Sweet, Slightly Bitter, Astringent, Cool
- Bitter, Cold
- Sweet, Slightly Bitter, Slightly Cold
- Sweet, Bitter, Cold

61. Which meridians are affected by Pokeberry Root?

- Lung, Spleen, Kidney, Large Intestine
- Spleen, Stomach
- Heart, Spleen, Stomach, Liver, Gallbladder, Large Intestine
- Liver, Stomach

62. What part of Hemerocallis Radix is used in TCM?

- root
- root
- root
- root

63. What is the English name of the herb 枳壳 (Bingpian)?

- Hempleaf Negundo Chastetree Leaf
- Citrus Aurantium
- Wild Buckwheat Rhizome
- Borneol

64. What part of Medicil Evodia Fruit is used in TCM?

- tuber
- seed
- whole herb with root
- fruit

65. What part of spore of Japanese climbing Fern is used in TCM?

- aerial parts
- root and rhizome
- fruit
- bark

66. What is the English name of the herb ■■■■ (Diercao)?

- Meliae Azedarach Fructus
- Doubleteeth Pubescent Angelica Root
- Starwort Root
- all - grass of Japanese St. Johnswort

67. What are the properties of Lepidium seed, Descurainia seed?

- Sweet, Salty, Calm
- Pungent, Slightly Bitter, Warm
- Pungent, Bitter, Big Chill
- Bitter, Sweet, Cold

68. What is the English name of the herb ■■■■ (Zhuyazao)?

- poppy capsule
- Chinese Honeylocust Abnormal Fruit
- Germinated Barley
- seed of Jobsteas

69. Which meridians are affected by Benzoin?

- Heart, Spleen
- Spleen, Stomach, Lung
- Heart, Liver, Lung
- Liver, Stomach

70. Which meridians are affected by Peucedanidecursivi Radix?

- Liver, Spleen, Lung, Large Intestine
- Lung
- Kidney, Spleen
- Large Intestine

71. Which meridians are affected by Tangerine Seed?

- Liver, Kidney
- Lung, Liver
- Stomach, Liver, Gallbladder
- Stomach, Kidney

72. Which meridians are affected by Borneol?

- Spleen, Stomach, Liver
- Lung, Spleen, Heart
- Liver, Stomach
- Liver, Stomach, Large Intestine

73. What is the medicinal classification of Datura Flower?

- Yang Reinforcing Drugs
- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs
- Antitussive Antiasthmatics

74. What is the English name of the herb 金匱 (Jingdaji)?

- Magnoliae Flos
- Peking Euphorbia Root
- Calyx Seu Fructus Physalis
- seed of Chinese Arborvitae

75. What part of root of Membranous Milkvetch is used in TCM?

- rhizome
- root
- fruit
- seed

76. What is the English name of the herb 苘麻 (Gujingcao)?

- Hemp Seed
- seed of Asiatic pantain
- Pipewort Flower
- spine of Chinese Honeylocust

77. Which meridians are affected by Buckeye Seed?

- Liver,Kidney
- Liver,Stomach
- Heart,Lung,Spleen,Stomach
- Lung,Stomach,Kidney

78. What part of Abrus Precatorius L. is used in TCM?

- ripe seed
- balsam
- steamed and sundried root
- root

79. What is the medicinal classification of all-grass of Haichow Elsholtzia?

- Qi Regulating Drugs
- Yang Reinforcing Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Diuretic Dampness Excreting Drugs

80. What is the medicinal classification of all-grass of japanese hop?

- Qi Regulating Drugs
- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Diuretic Dampness Excreting Drugs
- Antipyretic Detoxicate Drugs

81. Which meridians are affected by Myrrh?

- Lung, Bladder
- Liver
- Heart, Liver, Spleen
- Liver, Gallbladder, Large Intestine

82. What is the English name of the herb 茵陈 (Yuansui)?

- Folium Ilicis Cornutae
- Fructus Carotae
- Coriandri Sativi Herba
- motherwort

83. What is the English name of the herb 胡黄连 (Huzhang)?

- root of Baikal skullcap
- rhizome of Giant Knotweed
- Siegesbeckiae Herba
- Celosiae Semen

84. What is the English name of the herb 羌活 (Qingfengteng)?

- Common Yam Rhizome
- Caulis Sinomenii
- Crataegi Folium
- Saffron

85. What is the medicinal classification of root of Medicil cyathula?

- Blood-Activating And Stasis-Resolving Medicinal
- Blood Activating Stasis Removing Drugs
- Liver-Pacifying Wind-Extinguishing Medicinal
- Phlegm-resolving Medicine

86. Which meridians are affected by Flower of Common Bombax?

- Large Intestine
- Liver, Spleen
- Stomach, Large Intestine
- Heart, Liver

87. What is the medicinal classification of Common Aucklandia Root?

- Qi Regulating Drugs
- Phlegm-resolving Medicine
- Tonifying And Replenishing Medicinal
- Offensive Purgative Medicinal

88. What is the medicinal classification of root and rhizome of Sorrel Rhubarb?

- Phlegm-resolving Medicine
- Offensive Purgative Medicinal
- Drastic Purgatives
- Antipyretic Detoxicate Drugs

89. What is the medicinal classification of all-grass of Glabrous sarcandra?

- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs
- Heat Clearing Blood Cooling Drugs
- Diuretic Dampness Excreting Drugs

90. Which meridians are affected by rhizome of Heartleaf Dryria?

- Liver,Kidney
- Heart,Liver,Kidney,Spleen
- Heart,Lung,Liver,Large Intestine
- Spleen,Stomach,Lung

91. What is the English name of the herb ■■ (Guangzao)?

- all - grass of Japanese St. Johnswort
- Pine Pollen
- rdostachys Root
- fruit of Axillary choerospondias

92. What part of root of Gansui is used in TCM?

- stem and branch-leaf
- aerial parts
- sclerotium
- tuberoid

93. Which meridians are affected by areca seed?

- Liver,Kidney
- Spleen,Stomach
- Liver,Kidney
- Stomach,Large Intestine

94. What part of root of tatarian aster is used in TCM?

- fruit
- seed
- root and rhizome
- inflorescence

95. What is the medicinal classification of Ailanthus bark, Tree of heaven bark?

- Antipyretic Detoxicate Drugs
- Heat-Clearing And Dampnessdrying Medicinal
- Qi Regulating Drugs
- Astringent Medicinal

96. What is the medicinal classification of Siphonostegiae Herba?

- Antipyretic Detoxicate Drugs
- Blood-Activating And Stasis-Resolving Medicinal
- Blood Activating Stasis Removing Drugs
- Tonifying And Replenishing Medicinal

97. What part of Chinese Taxillus Herb is used in TCM?

- fruit
- stem and branch-leaf
- ripe seed
- root and rhizome

98. What is the English name of the herb ❷❶ (Qianshi)?

- Stachyurus or Japanese Helwingia Pith
- Root of Garden Burnet
- seed of Gordon Euryale
- Sweet Wormwood Herb

99. What part of rhizome of Bistort is used in TCM?

- aerial parts
- root
- whole herb with root
- rhizome

100. What is the English name of the herb ❷❶❶ (Xuancaogen)?

- Hemerocallis Radix
- Stem of Leatherleaf Mahonia
- Root of Fourstamen Stephania
- Carii Fructus

101. What is the English name of the herb ❷❶ (Huajiao)?

- Prince's-feather Fruit
- Villous Amomum Fruit
- Pricklyash Peel
- motherwort

102. What part of Pharbitis seed is used in TCM?

- seed
- whole herb
- seed
- dried aerial parts

103. Which meridians are affected by All - grass of Mile Swertia?

- Liver,Kidney
- Spleen,Lung
- Lung,Liver
- Liver,Gallbladder,Bladder

104. What part of Chinese Cinquefoil is used in TCM?

- resinous wood
- whole herb with root
- root
- root

105. What is the English name of the herb 三棱 (Dijincao)?

- Chinese Dwarf Cherry Seed
- Himalayan Teasel Root
- motherwort
- all - grass of Humifuse Euphorbia

106. What is the medicinal classification of Macacae Calcalus Gasteris?

- Fire Purging Drugs
- Antipyretic Detoxicate Drugs
- Phlegmresolving Medicine
- Heat-Clearing Medicinal

107. What is the medicinal classification of Ginseng Leaf?

- Warming Interior Drugs
- Qi Reinforcing Drugs
- Offensive Purgative Medicinal
- Yang Reinforcing Drugs

108. What is the English name of the herb 桃仁 (Qianjinba)?

- Peach Seed
- Cortex Hibisci
- root of Philippine Flemingia
- Stem of Leatherleaf Mahonia

109. Which meridians are affected by Chinese Star Anise?

- Liver,Kidney,Spleen,Stomach
- Lung,Liver,Kidney
- Liver,Large Intestine
- Liver

110. What is the medicinal classification of Cymbopon Citratus(D C.) Stapf?

- Antipyretic Detoxicate Drugs
- Heat Clearing Blood Cooling Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Antipyretic Detoxicate Drugs

111. What is the English name of the herb 青蒿 (Qinghao)?

- Sweet Wormwood Herb
- Calendula Officilis
- fruit of Seville orange
- Phellodendron bark

112. What is the medicinal classification of Clove?

- Wind-Dampnessdispelling And Heatclearing Medicinal
- Diuretic Dampness Excreting Drugs
- Blood-Tonifying Medicinal
- Warming Interior Drugs

113. Which meridians are affected by Stem of Sargentgloryvine?

- Lung, Spleen, Stomach
- Liver, Lung, Stomach
- Large Intestine
- Large Intestine, Liver

114. What are the properties of pollen of longbract cattail?

- Pungent, Warm, Toxic
- Sour, Sweet, Warm
- Pungent, Calm
- Sweet, Calm

115. Which meridians are affected by root and rhizome of Sorrel Rhubarb?

- Spleen, Stomach, Large Intestine, Liver, Pericardium
- Lung, Spleen
- Spleen, Stomach, Lung
- Lung, Stomach, Bladder

116. What is the English name of the herb ■■ (Sharen)?

- Villous Amomum Fruit
- Ningpo Yam Rhizome
- Rubi Fructus
- Allium bulb, Wild scallion, Chinese green onion

117. What are the properties of Loquat Leaf?

- Pungent, Warm
- Bitter, Slightly Cold
- Bitter, Sweet, Sour, Calm
- Sweet, Calm

118. Which meridians are affected by Picrorhizae Rhizoma?

- Liver, Stomach, Large Intestine
- Liver, Spleen, Stomach, Kidney
- Liver, Gallbladder
- Heart, Small Intestine, Lung

119. Which meridians are affected by fruit of Rangooncreeper?

- Heart, Liver
- Lung, Heart, Liver
- Spleen, Stomach, Large Intestine, Triple Energizers, Gallbladder
- Spleen, Stomach

120. What is the medicinal classification of Kusnezoff Monkshood Leaf?

- Antipyretic Detoxicate Drugs
- Blood-Activating And Stasis-Resolving Medicinal
- Blood-Cooling Hemostatic Medicinal
- Wind-Dampnessdispelling And Heatclearing Medicinal

121. Which meridians are affected by *Cotyledon Fimbriata* Turcz.?

- Liver, Large Intestine
- Liver, Lung, Spleen
- Spleen, Stomach, Large Intestine, Small Intestine
- Spleen, Lung, Heart, Kidney

122. What is the medicinal classification of Pummelo Peel?

- Qi Regulating Drugs
- Antitussive Antiasthmatics
- Wind-Damp-Dispelling And Sinew-Bone-Strengthening Medicinal
- Warming Interior Drugs

123. What are the properties of *Eucommiae Folium*?

- Slightly Pungent, Warm
- Sweet, Bitter, Cold
- Pungent, Warm
- Bitter, Pungent, Cold

124. What are the properties of Fragrant Solomonseal Rhizome?

- Sweet, Slightly Cold
- Bitter, Pungent, Cold, Toxic
- Slightly Bitter, Cold
- Slightly Sour, Calm

125. What part of Puff-ball is used in TCM?

- fruit
- whole herb with root
- root
- sporocarp

126. What part of Root of Garden Burnet is used in TCM?

- root
- whole herb
- bulb
- root

127. What is the English name of the herb ■■ (Shaji)?

- fruit of seabuckthorn
- Difengpi Bark
- rhizome of Common Turmeric
- pollen of longbract cattail

128. What part of All - grass of Common Heron's bill is used in TCM?

- whole herb or rhizome
- aerial parts
- achene
- ripe seed

129. What is the medicinal classification of Dutchmanspipe Vine?

- Offensive Purgative Medicinal
- Pungent-Warm Exterior-Releasing Medicinal
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Astringent Medicinal

130. What is the English name of the herb ■■■■ (Guanhuangbo)?

- Chinese Clematis Root
- fruit of seabuckthorn
- Phellodendri Amurensis Cortex
- White peony root

131. What are the properties of Dictamni Cortex?

- Bitter,Cold
- Sweet,Salty,Warm
- Pungent,Slightly Warm
- Pungent,Bitter,Warm

132. What is the English name of the herb ■■■■ (Dazaojiao)?

- Gleditsiae Fructus
- Schisandrae Sphentherae Fructus
- Glabrous Greenbrier Rhizome
- bark of Oriental Variegated Coralbean

133. Which meridians are affected by Chinese Gall?

- Heart,Liver
- Lung, Large Intestine, Kidney
- Liver, Kidney
- Lung, Kidney

134. Which meridians are affected by Shrub Chastetree Fruit?

- Kidney, Heart, Lung
- Liver, Kidney
- Bladder, Stomach, Liver
- Lung, Stomach

135. What are the properties of root and rhizome of smilax?

- Bitter, Pungent, Warm
- Warm, Pungent, Salty
- Cold, Bitter
- Sweet, Slightly Sour, Calm

136. What is the medicinal classification of Sedum Aizoon L.?

- Wind-Dampnessdispelling And Heatclearing Medicinal
- Asthenic Heat Dispelling Drugs
- Stasis-Resolving Hemostatic Medicinal
- Qi Regulating Drugs

137. What are the properties of Ailanthus bark, Tree of heaven bark?

- Bitter,Cold
- Bitter,Astringent,Cold
- Bitter,Cold
- Pungent,Bitter,Cold

138. What are the properties of rhizome of Bistort?

- Pungent,Bitter,Warm
- Bitter,Calm,Slightly Toxic
- Bitter,Astringent,Slightly Cold
- Sweet,Bitter,Salty,Slightly Cold

139. What part of fruit -spike of Common Selfheal is used in TCM?

- root and rhizome
- spike
- root
- nut

140. What is the English name of the herb 黑胡 (Ercha)?

- Cutch, Black Catechu
- Dioscoreae Septemlobae Rhizoma
- Alpiniae Officinarum Rhizome
- Cotyledon Fimbriata Turcz.

141. What is the medicinal classification of Jack Bean?

- Qi Regulating Drugs
- Antipyretic Detoxicate Drugs
- Qi Regulating Drugs
- Astringent Hemostatic Medicinal

142. Which meridians are affected by Lotus Plumule?

- Heart,Liver
- Stomach,Large Intestine
- Heart,Kidney
- Lung,Liver

143. Which meridians are affected by Chuanxiong rhizome, Szechuan lovage root?

- Heart,Spleen,Stomach,Liver,Gallbladder,Large Intestine
- Liver,Spleen
- Lung,Kidney,Large Intestine
- Liver,Gallbladder,Pericardium

144. What part of Stem of Sargentgloryvine is used in TCM?

- aerial parts
- stem
- stem
- rhizome

145. What is the medicinal classification of all-grass of Common Androgrphis?

- Yang Reinforcing Drugs
- Fire Purging Drugs
- Antipyretic Detoxicate Drugs
- Astringent Medicinal

146. What is the medicinal classification of Herba Clematidis Aethusaefoliae?

- Offensive Purgative Medicinal
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Tonifying And Replenishing Medicinal
- Pungent-Warm Exterior-Releasing Medicinal

147. What is the English name of the herb ■■ (Renshen)?

- Cassia Seed
- Ginseng
- Common Aucklandia Root
- Common Monkshood Daughter Root

148. What part of Dried Ginger is used in TCM?

- whole herb with root
- fruit
- seed
- dried rhizome

149. What are the properties of spore of Japanese climbing Fern?

- Sweet,Salty,Cold
- Sweet,Tasteless,Calm
- Bitter,Sweet,Warm
- Sweet,Astringent,Calm

150. What are the properties of Akebia Fruit?

- Bitter,Calm
- Pungent,Bitter,Warm
- Bitter,Cold
- Bitter,Cold

151. What part of root of Grand Hogfennel is used in TCM?

- root
- ripe seed
- whole herb or root
- tuberoid

152. What are the properties of root of Japanese Ampelopsis ?

- Bitter,Slightly Cold
- Pungent,Hot,Toxic
- Pungent,Astringent,Slightly Warm
- Bitter,Pungent,Warm

153. What part of Eucommia bark is used in TCM?

- germinated fruit
- bark
- ripe seed
- pollen

154. What is the English name of the herb 枳实 (Yimucao)?

- Tangerine Seed
- Dutchmanspipe Fruit
- Indigo Plant Leaf
- motherwort

155. What part of stem of Chinese starjasmine is used in TCM?

- aerial parts
- fruit
- leafy stem
- whole herb

156. What are the properties of Root of Garden Burnet?

- Bitter, Cold, Slightly Toxic
- Pungent, Cold
- Slightly Bitter, Astringent, Cool
- Bitter, Sour, Astringent, Slightly Cold

157. What is the English name of the herb 蓖麻子 (Julu)?

- Castor Seed
- Pseudolaricis Cortex
- Chinese Clematis Root
- Citri Fructus Retinervus

158. What part of Garlic is used in TCM?

- leaf
- leaf
- flower
- bulb

159. Which meridians are affected by Red Peony root?

- Spleen, Stomach
- Heart, Stomach, Liver
- Liver
- Lung

160. What are the properties of rhizome of Obscured Homalome?

- Slightly Pungent, Warm
- Sweet, Calm
- Sweet, Calm
- Bitter, Pungent, Warm

161. What is the medicinal classification of Catclaw Buttercup Root?

- Astringent Medicinal
- Dampness Removing Drugs
- Antipyretic Detoxicate Drugs
- Diuretic Dampness Excreting Drugs

162. What are the properties of Cassia Twig?

- Pungent, Sweet, Warm
- Sweet, Warm
- Sweet, Sour, Calm
- Pungent, Slightly Bitter, Warm

163. What part of all-grass of Spanishneedles is used in TCM?

- sporocarp
- dried plumule and radicle in seed
- whole herb
- rhizome

164. What are the properties of Suberect Spatholobus Stem?

- Bitter, Sweet, Warm
- Sweet, Tasteless, Cold
- Bitter, Pungent, Calm
- Bitter, Astringent, Cool

165. What is the medicinal classification of Ilicis Cornutae Folium Immayuri?

- Fire Purging Drugs
- Antipyretic Detoxicate Drugs
- Fire Purging Drugs
- Pungent-Warm Exterior-Releasing Medicinal

166. What are the properties of Peking Euphorbia Root?

- Bitter, Slightly Sour, Cool
- Pungent, Bitter, Calm
- Bitter, Cold, Toxic
- Bitter, Cold

167. What is the English name of the herb ■■ (Huangjing)?

- Rhizome of Fragrant Solomonseal
- Fourleaf Ladybell Root
- Pharbitis seed
- Flatstem Milkvetch Seed

168. What part of Akebia Fruit is used in TCM?

- dried root
- seed
- seed
- whole herb with root

169. What is the English name of the herb 白芷 (Bibo)?

- Piperis Longi Fructus
- rhizome of Largehead Atractylodes
- Ginseng Leaf
- Galanga Resurrectionlily Rhizome

170. What are the properties of all - grass of Barbed Skullcap?

- Sweet, Slightly Bitter, Slightly Warm
- Pungent, Warm
- Pungent, Bitter, Cold
- Bitter, Cold

171. What is the English name of the herb 白芍 (Baibu)?

- Root of Japanese Stemo
- Pipewort Flower
- flower bud of common coltsfoot
- root of Twotooth Achyranthes

172. What part of stem of Kadsura Pepper is used in TCM?

- bud
- seed
- aerial parts
- stem

173. What is the English name of the herb 杜仲 (Duzhong)?

- Tangerine Seed
- Eucommia bark
- Gynostemmae Pentaphylli Herba
- Boschniakia Rossica Herba

174. What is the English name of the herb 黄芩 (Huangqi)?

- Sinkiang Fritillary Bulb
- all-grass of Common Dayflower
- root of Membranous Milkvetch
- Cluster Mallow Fruit

175. What are the properties of root of Lightyellow sophora?

- Pungent, Warm, Toxic
- Bitter, Cold
- Sweet, Pungent, Warm
- Bitter, Cold

176. What is the medicinal classification of achene of Great Burdock?

- Pungent Cool Diaphoretics
- Warming Interior Drugs
- Phlegmresolving Medicine
- Diuretic Dampness Excreting Drugs

177. Which meridians are affected by Root of Garden Burnet?

- Stomach
- Liver, Kidney, Large Intestine
- Liver, Large Intestine
- Liver, Kidney, Bladder

178. What part of flower of Chinese Globeflower is used in TCM?

- flower
- aerial parts
- root, leaf and flower
- fruit

179. What is the medicinal classification of Prince's-feather Fruit?

- Blood Activating Stasis Removing Drugs
- Blood Activating Stasis Removing Drugs
- Antipyretic Detoxicate Drugs
- Heat-Clearing Medicinal

180. Which meridians are affected by Areca Catechu L.?

- Lung, Stomach, Liver
- Lung, Kidney
- Spleen, Stomach, Large Intestine, Small Intestine
- Liver

181. What is the English name of the herb ■■ (Qingpi)?

- Phellodendron bark
- root of Chinese Thorowax
- Green Tangerine Peel
- Trigonellae Semen

182. Which meridians are affected by pod of Japanese pagodatree?

- Stomach, Large Intestine, Lung
- Lung, Spleen
- Lung, Spleen
- Liver, Large Intestine

183. What are the properties of all-grass of Haichow Elsholtzia?

- Slightly Bitter, Calm
- Pungent, Slightly Warm
- Pungent, Bitter, Cold
- Bitter, Pungent, Slightly Cold

184. What is the medicinal classification of Shinyleaf Pricklyash Root?

- Wind-Dampnessdispelling And Colddispersing Medicinal
- Wind-Damp-Dispelling And Sinew-Bone-Strengthening Medicinal
- Phlegmresolving Medicine
- Antipyretic Detoxicate Drugs

185. Which meridians are affected by Common Clubmoss Herb?

- Lung, Kidney
- Liver, Spleen, Kidney
- Lung, Stomach
- Heart, Liver

186. Which meridians are affected by fruit of Axillary choerospondias?

- Large Intestine, Stomach, Liver
- Spleen, Liver
- Liver, Spleen
- Heart, Liver

187. What is the English name of the herb ■■ (Muxiang)?

- Common Aucklandia Root
- Radix Stephaniae Cepharanthae.
- areca seed
- Chinese Lizardtail Rhizome or Herb

188. What is the medicinal classification of flower bud of Japanese pagodatree?

- Blood-Cooling Hemostatic Medicinal
- Qi Reinforcing Drugs
- Liver-Pacifying Wind-Extinguishing Medicinal
- Diuretic Dampness Excreting Drugs

189. What is the medicinal classification of All - grass of Mile Swertia?

- Heat-Clearing Medicinal
- Diuretic Dampness Excreting Drugs
- Yang Reinforcing Drugs
- Antipyretic Detoxicate Drugs

190. Which meridians are affected by Benincasae Semen?

- Liver, Spleen, Bladder
- Lung, Large Intestine
- Liver, Heart
- Spleen, Large Intestine, Stomach

191. What are the properties of Asiatic Cornelian Cherry Fruit?

- Sweet, Calm
- Pungent, Bitter, Slightly Cold
- Sour, Astringent, Slightly Warm
- Sweet, Warm

192. What is the medicinal classification of Smoked Plum?

- Phlegm-resolving Medicine
- Astringent Medicinal
- Offensive Purgative Medicinal
- Pungent Cool Diaphoretics

193. Which meridians are affected by Muskmelon base?

- Stomach
- Liver
- Liver, Spleen, Lung, Large Intestine
- Heart, Liver

194. What is the English name of the herb 枳实 (Banxia)?

- Thunder Ball
- seed of Jobstears
- root of Tali Madder
- tuber of Pinellia

195. What is the English name of the herb 苏合香 (Sijiqing)?

- flower bud of Lilac Daphne
- Purpleflower Holly Leaf
- Salviae Chinensis Herba
- Radish Seed

196. What is the English name of the herb 茵陈蒿 (Jinfeicao)?

- Dahurian Angelica Root
- Motherwort Fruit
- Chinese Taxillus Herb
- All - grass of Japanese Inula

197. What is the English name of the herb 瓜蒂 (Tianguazi)?

- Tuber Onion Seed
- Blackberrylily Rhizome
- muskmelon seed
- Hirsute Shiny Bugleweed Herb

198. What part of Colored Mistletoe Herb is used in TCM?

- whole herb with root
- whole herb
- stem and branch-leaf
- flower

199. What are the properties of Common Clubmoss Herb?

- Sweet, Cool
- Sweet, Slightly Cold, Toxic
- Sweet, Bitter, Cold
- Slightly Bitter, Pungent, Warm

200. What part of rhizome of Common Curculigo is used in TCM?

- whole herb
- fruit
- rhizome
- seed

201. What are the properties of Allium bulb, Wild scallion, Chinese green onion?

- Sour, Warm
- Pungent, Warm
- Pungent, Bitter, Warm
- Bitter, Cold

202. What part of Galanga Resurrectionlily Rhizome is used in TCM?

- leafy stem
- bulb
- rhizome
- germinated fruit

203. What is the medicinal classification of all-grass of discolor cinquefoil?

- Wind-Dampnessdispelling And Heatclearing Medicinal
- Warming Interior Drugs
- Antipyretic Detoxicate Drugs
- Qi Regulating Drugs

204. Which meridians are affected by Peking Euphorbia Root?

- Lung, Kidney
- Liver, Stomach
- Lung, Spleen, Kidney
- Lung, Stomach

205. Which meridians are affected by root of Garden Eggplant?

- Liver, Spleen
- Spleen, Stomach, Lung
- Spleen, Large Intestine, Stomach
- Spleen, Stomach, Lung

206. Which meridians are affected by flower of Pale Butterflybush?

- Lung, Large Intestine
- Liver, Kidney, Heart
- Lung, Liver
- Liver

207. What are the properties of Ginkgo seed?

- Sweet, Bitter, Astringent, Calm, Toxic
- Sweet, Pungent, Warm
- Bitter, Cold
- Bitter, Sweet, Calm

208. What is the English name of the herb ■■■■ (Sanqihua)?

- Catclaw Buttercup Root
- Prince's-feather Fruit
- Notoginseng Flos
- Schizonepetae Spica

209. What is the English name of the herb 枳椇 (Gonglaomu)?

- flower of Chinese Globeflower
- Hoveniae Dulcis Semen
- Stem of Leatherleaf Mahonia
- bitter Apricot seed

210. What is the medicinal classification of Hedysari Radix?

- Heat-Clearing And Dampnessdrying Medicinal
- Medicinal For Detoxification■Parasiticide■Drying Dampness And Relieving Itching
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Qi Reinforcing Drugs

211. What is the English name of the herb 苏合香 (Suhexiang)?

- Storax
- Dutchmanspipe Vine
- Sinkiang Fritillary Bulb
- leaf of leatherleaf Mahonia

212. What are the properties of All - grass of Japanese Inula?

- Bitter,Cold
- Sweet,Warm
- Pungent,Hot,Extremely Poisonous
- Bitter,Pungent,Salty,Warm

213. What are the properties of flower of Pale Butterflybush?

- Sweet,Slightly Cold
- Sweet,Pungent,Slightly Warm
- Sweet,Tasteless,Cool
- Sweet,Cold

214. What are the properties of Pacis Japonici Rhizoma?

- Pungent,Bitter,Warm,Toxic
- Bitter,Pungent,Calm
- Sweet,Slightly Bitter,Warm
- Bitter,Pungent,Warm,Extremely Poisonous

215. What are the properties of root of Medicil cyathula?

- Pungent,Warm
- Pungent,Hot,Extremely Poisonous
- Sweet,Tasteless,Cold
- Sweet,Slightly Bitter,Calm

216. What part of Jackinthepulpit Tuber is used in TCM?

- tuber
- whole herb with root
- stem
- fruit

217. What is the English name of the herb 黑莓 (Hezi)?

- Chinese Tamarisk Twig
- Medicine Terminalia Fruit
- Dahurian Angelica Root
- Blackberry Lily Rhizome

218. What are the properties of root of Twotooth Achyranthes?

- Pungent, Bitter, Calm
- Bitter, Slightly Pungent, Calm
- Bitter, Sweet, Sour, Calm
- Bitter, Pungent, Calm, Slightly Toxic

219. What is the medicinal classification of Zedaira Rhizome?

- Qi Regulating Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Blood Activating Stasis Removing Drugs
- Blood Activating Stasis Removing Drugs

220. What is the English name of the herb 决明子 (Juemingzi)?

- flower bud of Japanese pagoda tree
- leaf of Argemone
- Abrus Precatorius L.
- Cassia Seed

221. Which meridians are affected by Ginkgo seed?

- Lung, Kidney, Large Intestine
- Liver, Kidney
- Liver, Kidney, Bladder
- Lung, Kidney

222. What are the properties of Siphonostegiae Herba?

- Bitter, Sour, Astringent, Slightly Cold
- Bitter, Pungent, Warm
- Bitter, Cold
- Sweet, Tasteless, Calm

223. Which meridians are affected by all-grass of common knotgrass?

- Lung, Stomach, Large Intestine
- Heart, Liver, Lung
- Bladder
- Liver, Spleen, Stomach, Kidney

224. What is the medicinal classification of root of lobed kudzu vine?

- Blood-Activating And Stasis-Resolving Medicinal
- Tonifying And Replenishing Medicinal
- Pungent-Warm Exterior-Releasing Medicinal
- Blood Activating Stasis Removing Drugs

225. Which meridians are affected by Armand Clematis Stem?

- Heart, Small Intestine, Bladder
- Lung, Spleen
- Heart, Liver
- Liver

226. What is the English name of the herb 莲须 (Chuanjinpi)?

- Lotus stamen
- Indian Trumpetflower Seed
- Cortex Hibisci
- pollen of longbract cattail

227. What is the English name of the herb 亚麻子 (Yamazi)?

- Linseed
- Salviae Chinensis Herba
- Common Monkshood Daughter Root
- Fermented Soybean

228. What are the properties of Himalayan Teasel Root?

- Bitter, Pungent, Slightly Warm
- Sour, Cool
- Sweet, Cold
- Pungent, Calm, Toxic

229. Which meridians are affected by Ginseng?

- Spleen, Stomach
- Liver
- Spleen, Stomach, Liver
- Spleen, Lung, Heart, Kidney

230. What is the medicinal classification of Calyx Seu Fructus Physalis?

- Pungent-Warm Exterior-Releasing Medicinal
- Pungent Cool Diaphoretics
- Antipyretic Detoxicate Drugs
- Heat-Clearing Medicinal

231. Which meridians are affected by Field Thistle Herb?

- Heart, Liver
- Lung, Spleen, Stomach
- Lung
- Liver, Kidney

232. Which meridians are affected by Root of Japanese Stemo?

- Lung
- Bladder, Liver, Spleen
- Liver
- Lung, Liver

233. Which meridians are affected by Tree Peony Bark?

- Heart,Liver,Kidney
- Lung,Stomach
- Liver,Spleen
- Spleen,Stomach

234. What are the properties of Cochinchinese Asparagus Root?

- Pungent,Warm
- Pungent,Salty,Warm,Slightly Toxic
- Sweet,Bitter,Cold
- Bitter,Pungent,Slightly Cold

235. What is the medicinal classification of Field Thistle Herb?

- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Blood-Cooling Hemostatic Medicinal
- Medicinal For Detoxification■Parasiticide■Drying Dampness And Relieving Itching
- Toxin-Attacking And Worm-Expelling And Itch-Relieving Medicinal

236. What is the medicinal classification of rhizome of Nutgrass Galingale?

- Antipyretic Detoxicate Drugs
- Qi Regulating Drugs
- Blood-Cooling Hemostatic Medicinal
- Wind-Dampnessdispelling And Heatclearing Medicinal

237. What are the properties of Schisandrae Sphenetherae Fructus?

- Pungent,Slightly Bitter,Slightly Sweet,Calm
- Sour,Sweet,Warm
- Pungent,Warm
- Pungent,Hot

238. What is the English name of the herb ■■■■ (Caocongrong)?

- Boschniakia Rossica Herba
- root of lobed kudzu vine
- Lunulatae Herba
- Dutchmanspipe Vine

239. What is the medicinal classification of tuber of Pinellia?

- Phlegmresolving Medicine
- Diuretic Dampness Excreting Drugs
- Resuscitative Stimulant; Resuscitative Medicinal
- Diuretic Dampness Excreting Drugs

240. Which meridians are affected by White peony root?

- Heart
- Spleen,Stomach
- Lung
- Liver,Spleen

241. What is the English name of the herb 连翘 (Lianxu)?

- all-grass of Haichow Elsholtzia
- Lotus stamen
- Schisandrae Sphenetherae Fructus
- bitter Apricot seed

242. Which meridians are affected by Herba Solani Lyrati?

- Spleen, Stomach, Large Intestine, Small Intestine
- Stomach
- Liver, Gallbladder, Kidney
- Liver, Stomach, Kidney

243. What is the medicinal classification of Fourleaf Ladybell Root?

- Blood Activating Stasis Removing Drugs
- Antipyretic Detoxicate Drugs
- Yin-Tonifying Medicinal
- Blood Activating Stasis Removing Drugs

244. What is the medicinal classification of Chinese Lizardtail Rhizome or Herb?

- Antipyretic Detoxicate Drugs
- Blood-Activating And Stasis-Resolving Medicinal
- Phlegm-resolving Medicine
- Diuretic Dampness Excreting Drugs

245. Which meridians are affected by Gentiae Radix Et Rhizoma?

- Heart, Spleen, Stomach
- Lung, Heart
- Liver, Gallbladder
- Liver, Gallbladder, Pericardium

246. What is the medicinal classification of Medicine Terminalia Fruit?

- Phlegm-resolving Medicine
- Antipyretic Detoxicate Drugs
- Astringent Medicinal
- Blood Activating Stasis Removing Drugs

247. What is the medicinal classification of Round Cardamon Fruit?

- Diuretic Dampness Excreting Drugs
- Qi Reinforcing Drugs
- Dampness Removing Drugs
- Blood-Cooling Hemostatic Medicinal

248. What are the properties of Szechwan Chiberry Fruit?

- Sweet, Astringent, Calm
- Pungent, Warm, Toxic
- Pungent, Bitter, Calm
- Bitter, Cold, Slightly Toxic

249. What is the medicinal classification of Common Monkshood Daughter Root?

- Blood Activating Stasis Removing Drugs
- Qi Regulating Drugs
- Warming Interior Drugs
- Antitussive Antiasthmatics

250. Which meridians are affected by Lotus leaf?

- Heart,Liver
- Liver,Spleen,Stomach
- Lung,Liver,Spleen
- Kidney,Bladder

251. What is the medicinal classification of Suberect Spatholobus Stem?

- Wind-Dampnessdispelling And Heatclearing Medicinal
- Phlegmresolving Medicine
- Wind-Dampnessdispelling And Heatclearing Medicinal
- Blood Activating Stasis Removing Drugs

252. What is the medicinal classification of Hoveniae Dulcis Semen?

- Diuretic Dampness Excreting Drugs
- Antitussive Antiasthmatics
- Antipyretic Detoxicate Drugs
- Blood Activating Stasis Removing Drugs

253. What is the medicinal classification of all - grass of Stringy stonecrop?

- Antipyretic Detoxicate Drugs
- Tonifying And Replenishing Medicinal
- Antipyretic Detoxicate Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal

254. What is the English name of the herb ■■■■ (Weilingcai)?

- root of common htreewingnut
- Chinese Cinquefoil
- Physoclaie Radix
- Indian Trumpetflower Seed

255. Which meridians are affected by Pyrrosiae Folium?

- Spleen,Stomach,Kidney
- Lung,Large Intestine,Kidney
- Lung,Bladder
- Heart,Liver,Kidney

256. What is the medicinal classification of Gphalii Affinis Herba?

- Phlegmresolving Medicine
- Diuretic Dampness Excreting Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Blood Activating Stasis Removing Drugs

257. What part of Shrub Chastetree Fruit is used in TCM?

- bulb
- seed
- fruit
- young fruit

258. What part of Lepidium seed, Descurainia seed is used in TCM?

- inflorescence or herb
- seed
- root
- root

259. What is the medicinal classification of Large trifolious Bugbane Rhizome?

- Heat Clearing Blood Cooling Drugs
- Liver-Pacifying Wind-Extinguishing Medicinal
- Dampness Removing Drugs
- Pungent Cool Diaphoretics

260. Which meridians are affected by Szechwan Chiberry Fruit?

- Kidney
- Liver, Heart
- Liver, Small Intestine, Bladder
- Lung, Stomach

261. Which meridians are affected by Ailanthus bark, Tree of heaven bark?

- Large Intestine, Stomach, Liver
- Lung, Spleen, Kidney
- Spleen, Stomach, Lung
- Lung, Spleen, Kidney

262. What are the properties of Jack-in-the-pulpit Tuber?

- Pungent, Warm, Toxic
- Sweet, Bitter, Cold
- Bitter, Pungent, Warm, Toxic
- Pungent, Warm

263. Which meridians are affected by Wild Chrysanthemum Flower?

- Liver, Kidney, Bladder
- Lung, Stomach
- Liver, Heart
- Liver, Stomach, Lung

264. What are the properties of Citri Fructus Retinervus?

- Bitter, Cold, Toxic
- Sweet, Bitter, Calm
- Pungent, Hot, Toxic
- Bitter, Pungent, Calm

265. What is the English name of the herb 西洋参 (Xiyangshen)?

- rhizome of Nutgrass Galingale
- American Ginseng
- Pepper Fruit
- Ginseng

266. Which meridians are affected by flower bud of common coltsfoot?

- Kidney, Stomach
- Lung
- Large Intestine, Stomach, Liver
- Lung

267. What are the properties of Common Cnidium Fruit?

- Salty, Calm
- Bitter, Warm
- Sweet, Calm
- Pungent, Bitter, Warm, Slightly Toxic

268. What part of rhizome of Nutgrass Galingale is used in TCM?

- root
- seed
- leaf
- rhizome

269. What is the English name of the herb 川贝 (Muzei)?

- bulb of Thunberg Fritillary
- Common Scouring Rush Herb
- Bulb of Greenish Lily
- Fourleaf Ladybell Root

270. Which meridians are affected by all - grass of Stringy stonecrop?

- Liver, Gallbladder, Small Intestine
- Liver, Kidney, Spleen, Stomach
- Heart, Stomach
- Lung, Bladder, Large Intestine

271. What is the medicinal classification of root of antifebrile Dichroa?

- Wind-Dampness dispelling And Cold dispersing Medicinal
- Emetic Medicinal
- Pungent-Warm Exterior-Releasing Medicinal
- Astringent Hemostatic Medicinal

272. What is the English name of the herb 白附子 (Baifuzi)?

- Asiatic Pennywort Herb
- Henbane Seed
- all-grass Manchurian wildginger
- rhizome of Giant Typhonium

273. What is the medicinal classification of *Abrus Precatorius* L.?

- Diuretic Dampness Excreting Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Antipyretic Detoxicate Drugs
- Liver-Pacifying Wind-Extinguishing Medicinal

274. What are the properties of root of Baikal skullcap?

- Pungent, Warm
- Bitter, Cold
- Bitter, Pungent, Slightly Cold
- Sweet, Cold

275. What is the English name of the herb ■■■ (Baiyaozi)?

- Puff-ball
- *Illicis Cornutae Folium* Immayuri
- *Radix Stephaniae Cepharanthae*.
- Tangerine Seed

276. What are the properties of fruit of Seville orange?

- Sweet, Salty, Warm
- Sweet, Calm
- Bitter, Pungent, Sour, Slightly Cold
- Salty, Astringent, Warm

277. What is the English name of the herb ■■■ (Mujingzi)?

- Stem of Sargentgloryvine
- Asiatic Cornelian Cherry Fruit
- *Vitidis Canbifoliae Fructus*
- all - grass of Humifuse *Euphorbia*

278. What are the properties of European Verbe Herb?

- Sweet, Calm
- Pungent, Bitter, Hot, Slightly Toxic
- Bitter, Cool
- Slightly Bitter, Cold

279. What part of Flower of Common Bombax is used in TCM?

- black seed
- flower
- root
- Rhizome

280. What are the properties of Decumbent *Corydalis* Rhizome?

- Pungent, Warm
- Pungent, Cold, Toxic
- Bitter, Slightly Pungent, Warm
- Pungent, Bitter, Cold

281. What is the medicinal classification of *Lysimachiae Foenigraeci Herba*?

- Pungent-Warm Exterior-Releasing Medicinal
- Antipyretic Detoxicate Drugs
- Liver-Pacifying Wind-Extinguishing Medicinal
- Diuretic Dampness Excreting Drugs

282. What are the properties of *Broussonetiae Fructus*?

- Bitter,Cold
- Bitter,Cold
- Sweet,Pungent,Slightly Astringent,Calm
- Sweet,Cold

283. Which meridians are affected by root of *Divaricate Saposhnikovia*?

- Lung,Liver
- Bladder,Liver,Spleen
- Kidney,Large Intestine
- Liver,Spleen

284. What is the medicinal classification of all-grass of common knotgrass?

- Blood-Tonifying Medicinal
- Antitussive Antiasthmatics
- Diuretic Dampness Excreting Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal

285. What is the medicinal classification of All - grass of Japanese *Inula*?

- Astringent Hemostatic Medicinal
- Phlegmresolving Medicine
- Pungent-Warm Exterior-Releasing Medicinal
- Antipyretic Detoxicate Drugs

286. Which meridians are affected by Fresh Ginger?

- Lung,Spleen,Stomach
- Lung,Stomach,Large Intestine
- Heart,Lung,Liver,Large Intestine
- Liver,Heart,Kidney

287. What part of Rose Flower is used in TCM?

- root
- dried sporocarp
- bud
- seed

288. What is the medicinal classification of all-grass of Rippleseed plantain?

- Phlegmresolving Medicine
- Diuretic Dampness Excreting Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Antipyretic Detoxicate Drugs

289. What are the properties of Yellow Azalea Flower?

- Pungent, Warm, Extremely Poisonous
- Pungent, Bitter, Slightly Cold, Toxic
- Bitter, Cold
- Pungent, Warm

290. What is the medicinal classification of Motherwort Fruit?

- Warming Interior Drugs
- Blood Activating Stasis Removing Drugs
- Phlegm-resolving Medicine
- Liver-Pacifying Wind-Extinguishing Medicinal

291. What is the medicinal classification of Saffron?

- Phlegm-resolving Medicine
- Qi Regulating Drugs
- Phlegm-resolving Medicine
- Blood Activating Stasis Removing Drugs

292. Which meridians are affected by Sanchi?

- Stomach
- Liver, Pericardium
- Liver, Stomach
- Kidney, Bladder

293. What is the English name of the herb 荜茇 (Dingxiang)?

- Clove
- Virgate Wormwood Herb
- root and rhizome of Manyleaf Meadowrue
- Magnoliae Flos

294. What part of Safflower is used in TCM?

- fruit
- flower
- tuberoid
- root

295. What part of Cassia Bark is used in TCM?

- leaf
- seed
- bark
- root

296. What are the properties of Apocyniveneti Folium?

- Bitter, Warm, Extremely Poisonous
- Pungent, Hot, Toxic
- Sweet, Bitter, Cool
- Sweet, Salty, Warm

297. What is the English name of the herb 白芷 (Mihoutaogen)?

- Decumbent Corydalis Rhizome
- Sapindi Mukorossiperic Arpium
- Fresh Ginger
- Actinidia Chinensis Planch

298. What is the English name of the herb 天竺黄 (Tianzhuhuang)?

- aal-grass of Tamariskoid spikemoss
- stem or leaf of Fung Waxplant
- Puff-ball
- Chinese schinzostachyum Tabasheer

299. What are the properties of Sapindi Mukorossiperic Arpium?

- Sweet,Slightly Cold
- Sweet,Calm
- Bitter,Calm,Slightly Toxic
- Bitter,Pungent,Slightly Cold

300. Which meridians are affected by Muskroot-like Semiaquilegia Root?

- Liver,Stomach
- Lung,Large Intestine
- Spleen,Large Intestine,Small Intestine
- Lung,Kidney

301. What is the English name of the herb 徐仙草 (Xixiancao)?

- Kusnezoff Monkshood Leaf
- Root and rhizome of Incised Notoptergium
- Siegesbeckiae Herba
- fruit of Glossy privet

302. What is the English name of the herb 陈香 (Chenxiang)?

- All - grass of Common Heron's bill
- flower of Hyacinth Dolichos
- Ephedra
- Oily wood of Agalloch Eaglewood

303. What are the properties of Citri Fructus?

- Sweet,Slightly Bitter,Warm
- Pungent,Bitter,Sour,Warm
- Pungent,Bitter,Warm
- Sour,Astringent,Warm

304. Which meridians are affected by rhizome of Obscured Homalome?

- Liver,Kidney
- Liver,Spleen,Lung
- Liver,Spleen,Stomach,Kidney
- Liver,Spleen,Stomach

305. What is the English name of the herb 金盏花 (Jinzhanjuhua)?

- Calendula Officinalis
- Fructus Carotae
- Ginkgo seed
- Crataegi Folium

306. What is the medicinal classification of pith of Ricepaperplant?

- Diuretic Dampness Excreting Drugs
- Diuretic Dampness Excreting Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Offensive Purgative Medicinal

307. Which meridians are affected by root of tatarian aster?

- Liver,Gallbladder,Lung,Large Intestine
- Liver,Kidney,Lung,Small Intestine
- Heart,Liver,Stomach
- Lung

308. What are the properties of spine of Chinese Honeylocust?

- Bitter,Cold
- Pungent,Warm
- Bitter,Astringent,Slightly Cold
- Bitter,Slightly Pungent,Calm

309. What are the properties of Wild Buckwheat Rhizome?

- Pungent,Bitter,Cold
- Sweet,Warm
- Slightly Pungent,Astringent,Cool
- Sweet,Salty,Warm

310. What is the medicinal classification of Cicada Slough?

- Wind-Dampnessdispelling Medicinal
- Blood Activating Stasis Removing Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Pungent Cool Diaphoretics

311. Which meridians are affected by Java Brucea Fruit?

- Liver,Kidney,Spleen
- Lung,Stomach
- Large Intestine,Liver
- Liver

312. What are the properties of Chinese Lobelia Herb?

- Pungent,Calm
- Pungent,Slightly Sweet,Slightly Cold
- Sweet,Calm
- Pungent,Hot

313. What are the properties of Chinese Star Anise?

- Bitter,Cold,Toxic
- Bitter,Pungent,Warm,Slightly Toxic
- Pungent,Warm
- Bitter,Cold

314. What is the English name of the herb 白芷 (Xiangfu)?

- Corydalis tuber
- root of Garden Eggplant
- rhizome of Nutgrass Galingale
- Trigonellae Semen

315. What are the properties of all-grass of Fineleaf Schizonepeta?

- Sweet,Salty,Warm,Toxic
- Sweet,Cold
- Pungent,Slightly Warm
- Bitter,Sweet,Slightly Cold

316. Which meridians are affected by Gphalii Affinis Herba?

- Heart,Liver,Kidney
- Heart,Liver,Spleen
- Lung
- Stomach

317. What are the properties of Corydalis tuber?

- Pungent,Warm
- Sweet,Pungent,Calm,Toxic
- Warm,Pungent,Bitter
- Pungent,Hot,Extremely Poisonous

318. Which meridians are affected by American Ginseng?

- Heart,Lung,Kidney
- Spleen,Stomach,Kidney
- Lung,Liver,Spleen
- Liver,Stomach,Large Intestine

319. What are the properties of Root of Chinese Pulsatilla?

- Bitter,Cold
- Sweet,Bitter,Salty,Slightly Cold
- Bitter,Cold
- Pungent,Slightly Bitter,Warm

320. What are the properties of Lunulatae Herba?

- Slightly Bitter,Salty,Cool
- Sweet,Bitter,Cold
- Slightly Bitter,Pungent,Warm
- Bitter,Slightly Cold,Toxic

321. What is the English name of the herb ■■■ (Huashanshen)?

- Glutinous Rice root
- Herba Solani Lyrati
- Physochlaie Radix
- root - bark of Chinese Wolfberry

322. Which meridians are affected by puth of Ricepaperplant?

- Heart,Liver,Kidney,Spleen
- Lung,Liver
- Lung,Stomach
- Lung,Gallbladder,Spleen,Large Intestine,Small Intestine

323. What is the English name of the herb ■■■ (Madouling)?

- fruit of Chinese Wolfberry
- Chinese Star Anise
- Suberect Spatholobus Stem
- Dutohmanspipe Fruit

324. What are the properties of seed of Asiatic pantain?

- Sweet,Salty,Warm
- Sweet,Slightly Warm
- Sweet,Calm
- Sweet,Cold

325. What is the English name of the herb ■■ (Cangzhu)?

- Coriandri Sativi Herba
- Rhizome of Swordlike Atractylodes
- spine of Chinese Honeylocust
- fruit of Seville orange

326. What are the properties of Paniculate Bolbostemma?

- Sweet,Calm
- Bitter,Slightly Cold
- Pungent,Warm
- Sweet,Calm

327. What part of Corn stigma is used in TCM?

- rhizome
- style and stigma
- tuber
- rhizome

328. What is the medicinal classification of fruit of Common Floweringquince?

- Warming Interior Drugs
- Antipyretic Detoxicate Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Wind-Dampnessdispelling And Colddispersing Medicinal

329. What are the properties of Vietnamese Sophora Root?

- Bitter,Cold,Toxic
- Slightly Bitter,Cool,Slightly Toxic
- Pungent,Warm
- Sweet,Warm

330. What are the properties of Storax?

- Bitter,Cold
- Sweet,Salty,Slightly Cold
- Pungent,Warm
- Slightly Bitter,Pungent,Warm,Slightly Toxic

331. What is the medicinal classification of Emblic Leafflower Fruit?

- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Antipyretic Detoxicate Drugs

332. What is the English name of the herb ■■■■ (Shandougen)?

- Chinese Star Anise
- Citrus Aurantium
- Vietnamese Sophora Root
- Datura Flower

333. Which meridians are affected by all-grass of Heartleaf Houttuynia?

- Liver,Kidney
- Liver,Stomach
- Lung
- Liver

334. What part of Sweet Wormwood Herb is used in TCM?

- whole herb
- root
- aerial parts
- rhizome

335. What is the English name of the herb ■■■■ (Tiankuizi)?

- Muskroot-like Semiaquilegia Root
- Flatstem Milkvetch Seed
- European Verbe Herb
- Root of Garden Burnet

336. What are the properties of English Walnut Seed?

- Sweet,Slightly Bitter,Slightly Warm
- Sweet,Warm
- Sweet,Salty,Warm
- Bitter,Cold

337. What are the properties of Desertliving Cistanche?

- Sour, Slightly Cold
- Sweet, Salty, Warm
- Salty, Bitter, Cold
- Sweet, Slightly Bitter, Cool

338. Which meridians are affected by root of Japanese Ampelopsis ?

- Heart, Stomach
- Large Intestine
- Liver, Pericardium, Bladder
- Liver, Large Intestine

339. What part of Ginkgo seed is used in TCM?

- root
- flower
- ripe seed
- nut

340. Which meridians are affected by fruit of Chinese Wolfberry?

- Liver, Spleen
- Liver, Kidney
- Liver, Lung, Spleen
- Lung, Liver, Large Intestine

341. What is the medicinal classification of Peucedanidecursivi Radix?

- Medicinal For Detoxification ■ Parasiticide ■ Drying Dampness And Relieving Itching
- Antipyretic Detoxicate Drugs
- Yang Reinforcing Drugs
- Phlegm-resolving Medicine

342. What is the medicinal classification of Green Tangerine Peel?

- Astringent Medicinal
- Wind-Dampness dispelling And Heat-clearing Medicinal
- Qi Regulating Drugs
- Digestants

343. What part of all-grass of Fineleaf Schizonepeta is used in TCM?

- whole herb
- aerial parts
- fruit
- dried fruit

344. What part of rhizome of Chinese Goldthread is used in TCM?

- rhizome
- seed
- rhizome
- ripe seed

345. What part of Mustard Seed is used in TCM?

- root
- fruit
- root
- seed

346. Which meridians are affected by achene of Great Burdock?

- Stomach, Large Intestine
- Lung, Stomach
- Heart, Small Intestine
- Liver, Stomach, Large Intestine

347. What is the medicinal classification of rhizome of Giant Typhonium?

- Liver-Pacifying Wind-Extinguishing Medicinal
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Phlegmresolving Medicine
- Wind-Dampnessdispelling And Colddispersing Medicinal

348. What is the medicinal classification of Piperis Longi Fructus?

- Warming Interior Drugs
- Qi Reinforcing Drugs
- Dampness Removing Drugs
- Tonifying And Replenishing Medicinal

349. What part of all-grass Chinese pyrola is used in TCM?

- root and rhizome
- whole herb
- rhizome
- rhizome

350. What is the medicinal classification of American Ginseng?

- Tonifying And Replenishing Medicinal
- Yang Reinforcing Drugs
- Digestants
- Qi Reinforcing Drugs

351. What is the medicinal classification of Akebia, Clematis stem?

- Blood Activating Stasis Removing Drugs
- Wind-Dampnessdispelling And Colddispersing Medicinal
- Warming Interior Drugs
- Diuretic Dampness Excreting Drugs

352. What are the properties of Chicory Herb?

- Bitter, Salty, Cold
- Bitter, Sweet, Warm
- Bitter, Sweet, Warm
- Slightly Bitter, Salty, Cool

353. Which meridians are affected by Ussuri Fritillary Bulb?

- Large Intestine
- Lung, Stomach, Liver
- Lung, Heart
- Liver, Gallbladder, Kidney

354. What is the medicinal classification of Cluster Mallow Fruit?

- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Liver-Pacifying Wind-Extinguishing Medicinal
- Qi Reinforcing Drugs
- Toxin-Attacking And Worm-Expelling And Itch-Relieving Medicinal

355. Which meridians are affected by Eucommia bark?

- Liver, Kidney
- Heart, Lung, Liver, Kidney
- Liver, Lung, Stomach
- Liver

356. Which meridians are affected by Fourleaf Ladybell Root?

- Liver, Gallbladder, Heart
- Lung, Stomach
- Heart, Liver, Lung
- Lung, Liver

357. What is the English name of the herb ■■■ (Hetaoren)?

- Actinidia Chinensis Planch
- Notoginseng Flos
- Szechwan Chiberry Fruit
- English Walnut Seed

358. What are the properties of Cockscomb flower ?

- Slightly Sour, Calm
- Sweet, Astringent, Cool
- Sweet, Cold
- Pungent, Cool

359. What is the English name of the herb ■■ (Wasong)?

- Puncturevine Caltrop Fruit
- root Pilose Asiabell
- Cotyledon Fimbriata Turcz.
- Kelp or Tangle

360. Which meridians are affected by Storax?

- Lung, Stomach, Large Intestine
- Liver, Spleen
- Heart, Spleen
- Lung, Heart

361. Which meridians are affected by Radix Stephaniae Cepharanthae.?

- Lung, Spleen
- Heart, Stomach
- Lung, Stomach
- Liver, Stomach

362. Which meridians are affected by Virgate Wormwood Herb?

- Spleen, Stomach, Liver, Gallbladder
- Liver, Kidney
- Stomach, Large Intestine
- Liver, Spleen

363. What is the medicinal classification of pollen of longbract cattail?

- Heat-Clearing And Dampness-drying Medicinal
- Qi Reinforcing Drugs
- Yang Reinforcing Drugs
- Stasis-Resolving Hemostatic Medicinal

364. What is the medicinal classification of Germited Barley?

- Digestants
- Phlegm-resolving Medicine
- Astringent Hemostatic Medicinal
- Blood-Cooling Hemostatic Medicinal

365. Which meridians are affected by root of common hawthorn?

- Spleen, Stomach
- Spleen, Kidney
- Liver, Spleen
- Liver, Heart

366. Which meridians are affected by Ilicis Cornutae Folium Immayuri?

- Lung, Heart
- Spleen, Small Intestine
- Liver, Large Intestine
- Liver, Lung, Stomach

367. What is the English name of the herb 莲房 (Lianfang)?

- bulb of longstamen onion
- Lotus Receptacle
- Storax
- Dahurian Angelica Root

368. What are the properties of Common Carpesium Fruit?

- Bitter, Pungent, Calm, Slightly Toxic
- Pungent, Bitter, Warm
- Sweet, Tasteless, Cool
- Sweet, Cold

369. What part of Weeping Forsythia Capsule is used in TCM?

- ripe fruit without shell
- dried fruit
- resinous wood
- aerial parts

370. Which meridians are affected by Coriandri Sativi Herba?

- Lung, Spleen, Stomach, Large Intestine
- Liver
- Lung, Stomach, Heart, Gallbladder
- Lung, Spleen, Liver

371. What is the medicinal classification of Vitis Canbifoliae Fructus?

- Wind-Dampness dispelling And Heat clearing Medicinal
- Antipyretic Detoxicate Drugs
- Antitussive Antiasthmatics
- Resuscitative Stimulant; Resuscitative Medicinal

372. What is the medicinal classification of calyx and receptacle of a Persimmon?

- Qi Regulating Drugs
- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Wind-Dampness dispelling And Cold dispersing Medicinal
- Phlegm resolving Medicine

373. Which meridians are affected by Common Carpesium Fruit?

- Spleen, Stomach
- Spleen, Stomach
- Lung, Liver, Large Intestine
- Lung, Heart, Kidney

374. What are the properties of Pomegranate Rind?

- Sweet, Calm
- Bitter, Cold
- Sour, Astringent, Warm
- Sweet, Salty, Calm

375. What are the properties of Lotus Plumule?

- Bitter, Pungent, Slightly Toxic
- Bitter, Cold
- Bitter, Pungent, Slightly Cold
- Sweet, Calm, Slightly Toxic

376. What are the properties of root of Chinese Thorowax?

- Sweet, Bitter, Calm
- Bitter, Cold
- Pungent, Bitter, Slightly Cold
- Sweet, Bitter, Calm

377. What is the medicinal classification of Fructus Carotae?

- Antiparasitic Drugs
- Astringent Medicinal
- Yang Reinforcing Drugs
- Medicinal For Detoxification ■ Parasiticide ■ Drying Dampness And Relieving Itching

378. What part of Hemp Seed is used in TCM?

- root
- rhizome
- root, leaf and flower
- ripe seed

379. Which meridians are affected by rhizome of Oriental Waterplantain?

- Liver, Kidney
- Kidney, Bladder
- Kidney, Bladder
- Liver, Spleen, Lung

380. What is the medicinal classification of Chinese Taxillus Herb?

- Wind-Damp-Dispelling And Sinew-Bone-Strengthening Medicinal
- Qi Reinforcing Drugs
- Antipyretic Detoxicate Drugs
- Laxatives

381. What are the properties of Tuber - root of Common Turmeric?

- Pungent, Bitter, Cold
- Bitter, Warm, Extremely Poisonous
- Sweet, Cold
- Bitter, Slightly Cold

382. What is the medicinal classification of Decumbent Corydalis Rhizome?

- Diuretic Dampness Excreting Drugs
- Heat-Clearing Medicinal
- Wind-Dampnessdispelling And Heatclearing Medicinal
- Heat-Clearing And Dampnessdrying Medicinal

383. What are the properties of root of common htreewingnut?

- Bitter, Cold, Toxic
- Pungent, Astringent, Slightly Warm
- Bitter, Pungent, Cool, Extremely Poisonous
- Sweet, Cold

384. What are the properties of Rhizoma Seu Herba Aristolochiae Mollissimae?

- Sweet, Slightly Warm
- Bitter, Cold
- Pungent, Bitter, Calm
- Salty, Astringent, Warm

385. Which meridians are affected by Root of Fourstamen Stephania?

- Bladder,Lung
- Heart,Liver
- Heart,Spleen,Stomach
- Lung

386. What is the English name of the herb ■■ (Meihua)?

- Schisandrae Sphenetherae Fructus
- Plum Flower
- root of Membranous Milkvetch
- root of antifebrile Dichroa

387. What are the properties of Notoginseng Flos?

- Sweet,Salty,Warm
- Pungent,Warm,Toxic
- Sweet,Slightly Bitter,Cool
- Pungent,Calm

388. What are the properties of Litchi seed?

- Pungent,Cold,Toxic
- Sour,Astringent,Calm,Toxic
- Bitter,Cold
- Sweet,Slightly Bitter,Warm

389. What part of Sinkiang Fritillary Bulb is used in TCM?

- root
- bulb
- leaf
- rhizome

390. What is the English name of the herb ■■■ (Mohanlian)?

- all-grass of Yerbadetajo
- poppy capsule
- all-grass of Haichow Elsholtzia
- Chrysanthemum Flower

391. Which meridians are affected by Meliae Cortex?

- Liver,Kidney
- Heart,Spleen,Lung
- Liver,Spleen,Stomach
- Spleen,Lung,Kidney

392. What is the medicinal classification of Aloe?

- Offensive Purgative Medicinal
- Antipyretic Detoxicate Drugs
- Pungent-Warm Exterior-Releasing Medicinal
- Yang Reinforcing Drugs

393. What are the properties of Mentha, Peppermint?

- Bitter,Pungent,Calm,Slightly Toxic
- Sour,Astringent,Calm
- Pungent,Cool
- Sweet,Calm

394. What part of Purpleflower Holly Leaf is used in TCM?

- seed
- sclerotium
- leaf
- root

395. What is the English name of the herb 白前 (Yangjinhua)?

- Datura Flower
- Cluster Mallow Fruit
- Schizonepetae Spica
- Gentiae Radix Et Rhizoma

396. What is the medicinal classification of Linseed?

- Heat-Clearing And Dampnessdrying Medicinal
- Laxatives
- Drastic Purgatives
- Pungent-Warm Exterior-Releasing Medicinal

397. What is the medicinal classification of Cayratiae Japonicae Herba?

- Astringent Hemostatic Medicinal
- Antipyretic Detoxicate Drugs
- Wind-Dampnessdispelling And Heatclearing Medicinal
- External Medicinal (Draw Out Toxin, Resolve Putridity)

398. What are the properties of Clinopodium Herb?

- Bitter,Slightly Sour,Cool
- Slightly Bitter,Astringent,Cool
- Pungent,Sweet,Calm
- Sweet,Slightly Bitter,Astringent,Calm

399. What is the medicinal classification of Tuber Onion Seed?

- Antipyretic Detoxicate Drugs
- Blood Activating Stasis Removing Drugs
- Antipyretic Detoxicate Drugs
- Yang Reinforcing Drugs

400. What part of root of antifebrile Dichroa is used in TCM?

- ripe fruit
- flower
- fruit
- root

401. Which meridians are affected by Cayratiae Japonicae Herba?

- Lung
- Lung,Heart
- Heart,Liver,Stomach
- Lung,Stomach,Large Intestine

402. What part of Sapindi Mukorossiperic Arpium is used in TCM?

- pericarp
- whole herb
- fruit
- whole herb

403. Which meridians are affected by Safflower?

- Spleen,Lung,Heart,Kidney
- Spleen,Stomach,Kidney,Heart,Lung
- Heart,Liver
- Liver,Spleen

404. What are the properties of Cow-bezoar?

- Sweet,Warm
- Pungent,Bitter,Cool
- Bitter,Pungent,Calm
- Sweet,Cool

405. What part of Chinese Lobelia Herb is used in TCM?

- root
- aerial parts
- root
- whole herb

406. What is the English name of the herb ■■■■ (Fenbixie)?

- all-grass of Rippleseed plantain
- root of tatarian aster
- Dioscoreae Hypoglaucae Rhizoma
- Herba Clematidis Aethusaefoliae

407. What are the properties of Morindae Officilis Radix?

- Pungent,Bitter,Slightly Cold
- Sweet,Pungent,Slightly Warm
- Bitter,Pungent,Cool,Extremely Poisonous
- Pungent,Calm

408. Which meridians are affected by Cicada Slough?

- Heart,Stomach,Liver
- Lung,Liver
- Liver,Heart,Bladder
- Liver

409. What is the English name of the herb ■■■ (Kudingcha)?

- Christi Loosestrife
- Ilicis Cornutae Folium Immayuri
- Alpiniae Oxyphyllae Fructus
- Common Aucklandia Root

410. What is the medicinal classification of Dodder Seed?

- Antipyretic Detoxicate Drugs
- Qi Regulating Drugs
- Phlegm-resolving Medicine
- Yang Reinforcing Drugs

411. What is the English name of the herb ■■ (Ganjiang)?

- Globethistle Root
- root of Ligulilobe sage
- Common Yam Rhizome
- Dried Ginger

412. What is the medicinal classification of twig of Winged Euonymus?

- Fire Purging Drugs
- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs
- Blood Activating Stasis Removing Drugs

413. What is the English name of the herb ■■ (Dangshen)?

- Hydnocarpus Anthelminticae Semen
- Oily wood of Agalloch Eaglewood
- Finger Citron
- root Pilose Asiabell

414. What are the properties of Canton Love-pea Vine?

- Sweet, Slightly Bitter, Cool
- Bitter, Cold, Slightly Toxic
- Salty, Pungent, Calm
- Sweet, Cold

415. What are the properties of All - grass of Mile Swertia?

- Bitter, Pungent, Cold
- Bitter, Sweet, Cold
- Slightly Bitter, Warm
- Bitter, Salty, Cold

416. What is the English name of the herb ■■ (Ruiren)?

- fruit of Glossy privet
- mung bean
- fruit of Siberian Cocklebur
- Hedge Prinsepia Nut

417. What is the English name of the herb 白芷 (Yuliren)?

- Pogostemon Cablin (Blanco) Benth.
- Chinese Dwarf Cherry Seed
- Chinese Taxillus Herb
- rhizome of Airpotato Yam

418. What are the properties of all - grass of Humifuse Euphorbia?

- Sweet,Tasteless,Calm
- Pungent,Calm
- Slightly Bitter,Pungent,Warm
- Sweet,Calm

419. What are the properties of Pepper Fruit?

- Bitter,Calm
- Bitter,Calm
- Bitter,Pungent,Warm,Toxic
- Pungent,Hot

420. What part of Pepper Fruit is used in TCM?

- ripe seed without seed coat
- whole herb
- fruit
- root

421. What are the properties of Ilicis Cornutae Folium Immayuri?

- Sweet,Bitter,Cold
- Pungent,Sweet,Big Hot
- Bitter,Pungent,Cool
- Salty,Bitter,Cold

422. What is the English name of the herb 枳椇 (Liangmianzhen)?

- calyx and receptacle of a Persimmon
- Globethistle Root
- all-grass of Fineleaf Schizonepeta
- Shinyleaf Pricklyash Root

423. What part of Chuanxiong rhizome, Szechuan lovage root is used in TCM?

- dried root
- bark
- rhizome
- tuber

424. Which meridians are affected by Doubleteeth Pubescent Angelica Root?

- Lung
- Liver,Stomach
- Kidney,Spleen
- Kidney,Bladder

425. What is the medicinal classification of Sanchi?

- Stasis-Resolving Hemostatic Medicinal
- Qi Regulating Drugs
- Wind-Dampness-dispelling Medicinal
- Drastic Purgatives

426. What part of Mulberry Leaf is used in TCM?

- leaf
- whole herb
- hooked stem-branch
- rattan

427. What is the English name of the herb ■■■■■ (Shidagonglaoye)?

- leaf of leatherleaf Mahonia
- Hoveniae Dulcis Semen
- Carii Fructus
- Root and rhizome of Incised Notopterygium

428. What part of Oily wood of Agalloch Eaglewood is used in TCM?

- dried rhizome
- sporocarp
- root
- resinous wood

429. What are the properties of Semino-dermis Arachidis ?

- Sweet, Slightly Bitter, Astringent, Calm
- Pungent, Warm
- Bitter, Slightly Cold, Toxic
- Pungent, Bitter, Calm

430. Which meridians are affected by tangerine leaf?

- Spleen, Stomach, Kidney
- Spleen, Stomach, Lung, Large Intestine
- Stomach, Large Intestine, Lung
- Liver, Stomach

431. What is the medicinal classification of Dahurian Rhododendron Leaf?

- Fire Purging Drugs
- Tonifying And Replenishing Medicinal
- Antipyretic Detoxicate Drugs
- Antitussive Antiasthmatics

432. What is the English name of the herb ■■ (Ziwan)?

- Stem of Taiwan Erycibe
- root of tatarian aster
- fruit of Cape Jasmine
- Rhizoma Seu Herba Aristolochiae Mollissimae

433. What is the English name of the herb 枳实 (Zhishi)?

- immature fruit of Seville orange
- all-grass of common knotgrass
- Stem of Taiwan Erycibe
- fruit of Cape Jasmine

434. Which meridians are affected by Boat-fruited Sterculia Seed?

- Spleen,Lung,Kidney
- Spleen,Liver
- Lung,Large Intestine
- Liver,Stomach

435. Which meridians are affected by Mylabris?

- Large Intestine,Stomach,Liver
- Liver
- Liver,Stomach,Kidney
- Heart,Lung,Stomach

436. What part of Myrrh is used in TCM?

- balsam
- fruit
- root
- stem

437. What are the properties of immature fruit of Seville orange?

- Bitter,Salty,Cold
- Sweet,Slightly Warm
- Sweet,Slightly Bitter,Cold
- Bitter,Pungent,Sour,Slightly Cold

438. What is the English name of the herb 麻黄 (Mahuang)?

- Common Clubmoss Herb
- Ephedra
- Uniflower Swisscentaury Root
- Round Cardamon Fruit

439. What is the English name of the herb 郁金 (Yuganzi)?

- Chinese Gall
- Weeping Forsythia Capsule
- Ginkgo seed
- Emblic Leafflower Fruit

440. What are the properties of root Pilose Asiabell?

- Pungent,Bitter,Cold
- Bitter,Cold
- Pungent,Bitter,Cool
- Sweet,Calm

441. What are the properties of fruit of Siberian Cockleblur?

- Pungent,Bitter,Warm,Toxic
- Sour,Astringent,Warm
- Sour,Warm,Toxic
- Pungent,Hot,Extremely Poisonous

442. What are the properties of Puff-ball?

- Pungent,Slightly Warm
- Salty,Cold
- Pungent,Calm
- Sweet,Tasteless,Calm

443. What are the properties of Indigoplant Leaf?

- Sweet,Bitter,Calm
- Bitter,Cold,Toxic
- Bitter,Cold
- Sour,Astringent,Calm,Toxic

444. What are the properties of Hoveniae Dulcis Semen?

- Pungent,Calm
- Bitter,Cold
- Sweet,Calm
- Sweet,Sour,Astringent,Cool

445. Which meridians are affected by Finger Citron?

- Liver,Spleen,Stomach,Lung
- Liver
- Lung,Stomach
- Liver,Kidney,Spleen,Stomach

446. What is the English name of the herb ■■■■ (Dafengzi)?

- Mulberry Twig
- Hydnocarpi Anthelminticae Semen
- Tuber - root of Common Turmeric
- Chinese Dwarf Cherry Seed

447. Which meridians are affected by fruit of Siberian Cockleblur?

- Lung,Spleen
- Lung
- Kidney,Heart,Lung
- Liver,Kidney

448. What is the English name of the herb ■■ (Mutong)?

- Citrus Aurantium
- Akebia, Clematis stem
- Pine Pollen
- Coriolus versicolor

449. What are the properties of rhizome of Oriental Waterplantain?

- Sour, Sweet, Warm
- Sweet, Tasteless, Cold
- Pungent, Bitter, Warm
- Bitter, Slightly Cold

450. What are the properties of Macacae Calculus Gasteris?

- Bitter, Cold, Nontoxic
- Pungent, Warm
- Bitter, Astringent, Calm
- Sweet, Slightly Sour, Calm

451. What part of Nux Vomica is used in TCM?

- seed
- rhizome
- aerial parts
- seed

452. What are the properties of all-grass of Lilac Pink?

- Pungent, Bitter, Cold
- Pungent, Slightly Bitter, Warm
- Pungent, Slightly Bitter, Slightly Sweet, Calm
- Bitter, Cold

453. Which meridians are affected by Sedum Aizoon L.?

- Heart, Liver
- Stomach, Large Intestine
- Heart, Liver
- Liver, Kidney

454. What is the medicinal classification of Ussuri Fritillary Bulb?

- Phlegm-resolving Medicine
- Phlegm-resolving Medicine
- Phlegm-resolving Medicine
- Wind-Dampness-dispersing And Cold-dispersing Medicinal

455. What are the properties of Iridis Tectori Rhizoma?

- Sweet, Slightly Bitter, Warm
- Bitter, Calm
- Bitter, Cold
- Pungent, Warm

456. Which meridians are affected by root of Light yellow sophora?

- Lung, Spleen, Kidney, Bladder
- Spleen, Kidney
- Heart, Liver, Stomach, Large Intestine, Bladder
- Lung, Spleen

457. What are the properties of Mulberry Fruit?

- Pungent,Bitter,Cold
- Sweet,Sour,Cold
- Sweet,Cold
- Pungent,Warm

458. Which meridians are affected by All - grass of Dahurian Patrinia?

- Stomach
- Kidney,Bladder
- Large Intestine,Stomach,Liver
- Liver,Gallbladder,Large Intestine

459. What is the medicinal classification of Rubi Fructus?

- External Medicinal (Draw Out Toxin, Resolve Putridity)
- Astringent Medicinal
- Tonifying And Replenishing Medicinal
- Dampness Removing Drugs

460. Which meridians are affected by Vacarria seed, Cow soapwort seed?

- Lung,Large Intestine
- Bladder,Liver,Spleen
- Liver,Stomach
- Liver,Stomach

461. What part of Peach Seed is used in TCM?

- seed
- whole herb
- root
- fruit

462. What is the English name of the herb ■■ (Niuxi)?

- tangerine leaf
- bulb of longstamen onion
- Selaginella Doederleinii Hieron
- root of Twotooth Achyranthes

463. Which meridians are affected by spine of Chinese Honeylocust?

- Lung
- Lung,Stomach
- Liver
- Liver,Stomach

464. What is the English name of the herb ■■ (Binglang)?

- Kelp or Tangle
- Prepared Rehmannia Root
- Chinese Tamarisk Twig
- areca seed

465. What part of Ginseng Leaf is used in TCM?

- leaf
- root
- tuber
- root

466. Which meridians are affected by Cortex Hibisci?

- Liver,Kidney
- Heart,Liver
- Large Intestine,Liver,Spleen
- Heart,Liver

467. What is the English name of the herb 枳实 (Lvcao)?

- Cassia Seed
- root of Membranous Milkvetch
- all-grass of japanese hop
- root of Coastal Glehnia

468. Which meridians are affected by Corydalis tuber?

- Liver
- Liver
- Spleen,Stomach
- Spleen,Liver,Heart

469. What is the medicinal classification of Notoginseng Flos?

- Drastic Purgatives
- Yang Reinforcing Drugs
- Antipyretic Detoxicate Drugs
- Yang Reinforcing Drugs

470. What is the English name of the herb 枳椇 (Zhijuzi)?

- Citri Fructus Retinervus
- Siphonostegiae Herba
- Spine Date Seed
- Hoveniae Dulcis Semen

471. What is the medicinal classification of Actinidia Chinensis Planch?

- Qi Reinforcing Drugs
- Antipyretic Detoxicate Drugs
- Antipyretic Detoxicate Drugs
- Heat-Clearing And Dampnessdrying Medicinal

472. Which meridians are affected by Japanese Ardisia Herb?

- Heart,Liver,Kidney
- Lung,Stomach,Liver
- Liver,Kidney,Large Intestine
- Lung,Liver

473. What part of all-grass of Heartleaf Houlttuynia is used in TCM?

- whole herb
- hooked stem-branch
- root
- aerial parts

474. What is the English name of the herb 三棱 (Shanyao)?

- Pomegrate Rind
- tuber of Pinellia
- Fortune Eupatorium Herb
- Common Yam Rhizome

475. What is the medicinal classification of Boschniakia Rossica Herba?

- Emetic Medicinal
- Yang Reinforcing Drugs
- Blood Activating Stasis Removing Drugs
- Antipyretic Detoxicate Drugs

476. Which meridians are affected by Physoclaie Radix?

- Lung, Spleen
- Lung, Heart
- Lung, Stomach
- Large Intestine, Small Intestine

477. What are the properties of Tokyo Violet Herb?

- Sweet, Warm
- Bitter, Calm
- Pungent, Hot, Extremely Poisonous
- Cold, Pungent, Bitter

478. What are the properties of Bamboo juice?

- Bitter, Salty, Cold
- Bitter, Cold
- Sweet, Bitter, Cold
- Pungent, Sweet, Warm

479. What are the properties of Odoriferous Rosewood?

- Sweet, Cold
- Sweet, Tasteless, Cool
- Pungent, Bitter, Warm
- Pungent, Warm

480. What is the English name of the herb 鲜姜 (Sanfensan)?

- Anisodus Acutangulus C. Y. Wu Et C. Chen Ex C. Che
- Sanchi
- rdostachys Root
- Fresh Ginger

481. What is the English name of the herb 大青叶 (Tujingpi)?

- root of Largeleaf Gentian
- all-grass of Thistle
- Pseudolaricis Cortex
- Paederiae Scandentis Herba

482. What is the medicinal classification of root of Tali Madder?

- Stasis-Resolving Hemostatic Medicinal
- Phlegm-resolving Medicine
- Qi Regulating Drugs
- Wind-Dampness-dispelling And Cold-dispersing Medicinal

483. What is the medicinal classification of immature fruit of Seville orange?

- Blood-Activating And Stasis-Resolving Medicinal
- Wind-Dampness-dispelling And Heat-clearing Medicinal
- Qi Regulating Drugs
- Yang Reinforcing Drugs

484. What is the English name of the herb 川贝母 (Chuanbeimu)?

- Bulb of Tendrilleaf Fritillary
- Radde Anemone Rhizome
- root and rhizome of smilax
- rhizome of Oriental Waterplantain

485. What part of Prepared Rehmannia Root is used in TCM?

- steamed and sundried root
- root
- germinated fruit
- root, stem or leaf

486. What part of Uniflower Swisscentaury Root is used in TCM?

- root
- whole herb or root
- seed
- resin

487. What is the medicinal classification of fruit of Siberian Cocklebur?

- Pungent-Warm Exterior-Releasing Medicinal
- Fire Purging Drugs
- Diuretic Dampness Excreting Drugs
- Digestants

488. What are the properties of Flower of Common Bombax?

- Bitter, Pungent, Cool, Extremely Poisonous
- Sweet, Tasteless, Calm
- Bitter, Slightly Cold
- Sweet, Tasteless, Cool

489. What is the medicinal classification of Mulberry Fruit?

- Liver-Pacifying Wind-Extinguishing Medicinal
- Yin-Tonifying Medicinal
- Phlegm-resolving Medicine
- Antipyretic Detoxicate Drugs

490. What is the English name of the herb 栝楼 (Luohanguo)?

- Grosvenor Momordica Fruit
- Hemerocallis Radix
- all - grass of Stringy stonecrop
- Oily wood of Agalloch Eaglewood

491. What are the properties of Prepared Rehmannia Root?

- Sweet, Slightly Warm
- Sweet, Cold
- Sweet, Tasteless, Warm
- Bitter, Cold

492. What is the medicinal classification of Puff-ball?

- Wind-Dampness-dispelling And Cold-dispersing Medicinal
- Blood Activating Stasis Removing Drugs
- Laxatives
- Antipyretic Detoxicate Drugs

493. What is the medicinal classification of Phellodendron bark?

- Heat-Clearing And Dampness-drying Medicinal
- Antipyretic Detoxicate Drugs
- Blood-Activating And Stasis-Resolving Medicinal
- Phlegm-resolving Medicine

494. What is the medicinal classification of rhizome of Common Amarrhe?

- Medicinal For Detoxification ■ Parasiticide ■ Drying Dampness And Relieving Itching
- Pungent-Warm Exterior-Releasing Medicinal
- Hemostatic Medicinal
- Fire Purging Drugs

495. Which meridians are affected by leafy twigs of Oriental Arborvitae?

- Liver, Spleen
- Lung, Liver, Spleen
- Lung
- Liver, Kidney

496. What are the properties of Fortune Eupatorium Herb?

- Pungent, Calm
- Pungent, Salty, Warm, Slightly Toxic
- Bitter, Cold
- Bitter, Pungent, Slightly Cold

497. What are the properties of Muskmelon base?

- Bitter,Sweet,Cold
- Sweet,Pungent,Warm
- Bitter,Cold,Toxic
- Bitter,Salty,Cold

498. What are the properties of Ephedra Root?

- Bitter,Cold,Toxic
- Sweet,Astringent,Calm
- Bitter,Salty,Cold
- Pungent,Warm

499. What are the properties of Jujube Chinese date?

- Pungent,Slightly Warm
- Sweet,Salty,Warm
- Bitter,Cold
- Sweet,Warm

500. What are the properties of stem or leaf of Fung Waxplant?

- Pungent,Warm
- Bitter,Pungent,Salty,Warm
- Bitter,Pungent,Cold,Slightly Toxic
- Pungent,Warm
